Grapevine

May, 2025

over 1000 subscribers

What is the Grapevine?

The *Grapevine* is a free monthly e-newsletter intended to help inform North Bay Area educators, and others, about science and environmental education resources, events, opportunities, etc. To receive the *Grapevine*, just email me at: mroa@sonic.net

Please share this information with whomever might be interested, and if you find out about something that should be shared among science and environmental educators, please let me know.

If you would like to have your event or other science or environmental education opportunity included in the Grapevine, send me an email with a short announcement that I can cut and paste. Send to: mroa@sonic.net Submissions are usually due on the 25th of the month. I plan to send the Grapevine the around the first of each month. (See Submission Due Date below.)

***If you represent an organization and would like to write your own (short) description, that would be GREAT. If you offer opportunities for volunteering or citizen science, please be sure to note that.**

To unsubscribe, just send me an e-mail asking to be dropped from the Grapevine list.

Past issues of the Grapevine are being archived at the North Bay Science Discovery website at:

<https://www.northbayscience.org/grapevine>

Submissions Due:

Submissions for the next *Grapevine* are due **the 27th of each month**. The next issue will include events through approximately **the 16th of the following month**.

Interested in a JOB? Have an opening to advertise? See the JOBS section following the articles.

Other science and environmental education newsletters:

A great free science newsletter and calendar is “SciSchmooze.” Contact Kishore Hari at:

bayareascience@substack.com

National Environmental Education Foundation (NEEF)

As its name implies, the National Environmental Education Foundation supports E.E. providers. They have a monthly newsletter in which they share information of interest to environmental educators. Sections include:

- **Educator Resources**
- **Grant Opportunities**: info on grants ranging from \$500 to \$50,000
- **Professional Development**:

You can sign up to receive the monthly NEEF newsletters at: <https://www.neefusa.org/ee-focus-newsletter-sign>

The North American Association for Environmental Education (NAAEE)

also has a newsletter : eeNEWS. In addition to promoting NAAEE conferences and other things, it includes information on:

- **Learning** (Professional Development)
- **Opportunities** (Grants, Contests, Publishing)
- **Resources** (For Students and Educators)

They also have an “eePRO” program to help e.e. professionals network

For information or to subscribe, contact NAAEE at: info@naaee.org

For other opportunities, check out: sciencenearme.org

STAND UP FOR SCIENCE, the ENVIRONMENT, and HUMANITY

Since I started the *Grapevine* in 2008, it has been pretty much apolitical. But I feel that the threats to science, the environment, democracy, and the rule of law posed by Trump and Musk can not be ignored.

If I find out about any local actions, I'll send out an email to *Grapevine* subscribers.
SO...

IF YOU FIND OUT ABOUT ANY LOCAL ACTIONS, PLEASE LET ME KNOW SO

One source for info on actions is the Mobilize Us / Hands Off website: <https://www.mobilize.us/handsoff/>

You might be interested in Bill Nye's Stand up for Science speech at:
<https://www.youtube.com/watch?v=IE92dsS6M3s>.

Some sources of information and ideas about actions are:

- **5calls.org** (focus is on calling your representatives to express your opinion)
- **Robert Hubbell** (a lawyer's perspective on current events)
- **Jessica Craven's Chop Wood, Carry Water** (information and suggestions. Her Sunday missive focuses on positive happenings during the previous week.)
- **Indivisible.org** has been fighting the fight since 2016

Protests:

A number of protests are planned in Sonoma County for May 1, 2, and 3. Do a search for May Day Protests.

An article in the April 18 *Press Democrat* listed a number of protests against Trump (and, by extension, against his anti-science and anti-environment efforts). Included were the following

- A Revolution for All – Not Just the Few: for info, do an internet search for: pdne.ws/3YjQc80
- March for Liberation: for info, do an internet search for: pdne.ws/4jD2i4w
- Cotati Weekly Protest: for info, do an internet search for: pdne.ws/4jD2i4w
- Petaluma Protests: for info, do an internet search for: pdne.ws/4jD2i4w
- Santa Rosa Tesla Protests: for info, do an internet search for: pdne.ws/4i7hgPO
- Save our VA: for info, go to www.facebook.com/Veterans-ForPeaceSonomaCounty
- Sebastopol Resist and Re-form Protest: for info, do an internet search for: pdne.ws/4jD2i4
- Sonoma Plaza Vigil to Resist Trump Administration: for info, do an internet search for: pdne.ws/3FsUzHc

Last month I provided a website with lots of **ideas for signs**. So that you don't have to go find that link, here it is again:

<https://bedfordvademocrats.org/how-to-make-protest-signs>

Got other good ideas for signs? Send them to me and I'll post them!

Here's one: Make America Green Again

Here's one for e.v. fans: **EVs Yes** **Elon No**

Martinez Beaver Festival

What has the tail of a platypus, the nose of a labrador and the back feet of a duck? If your answer was “A Beaver” You just might be ready to join Worth A Dam’s 16th annual beaver festival in Martinez. This truly unique wildlife event, features multiple nature exhibits, a beaver quiz with prizes, live music, a silent auction, a paint-your-own-tail project, a giant mobile fish tank, and a renowned chalk muralist. This year the focus will be on how creeks get healthier when beavers help them make a neighborhood by playing with a “full deck”, collect all the trading cards to prove it.

The free festival is on **June 28th from 10-3 in Susana Park in downtown Martinez**. To exhibit or attend go to **Martinezbeavers.org**. Become a Beaver Believer and find out everything this amazing animal can teach us!

Point Blue Conservation Science:

STRAW is excited to announce our 7th cohort of the Community College Conservation Internship, a summer program uplifting Black, Indigenous, People of Color (BIPOC) community college students in the conservation field. The internship is open to community college students in Sonoma, Napa, Marin, and Solano county. The 8-week internship, running from June 3rd to July 23rd, offers a \$1400 education stipend. No prior experience is required.

Most students hear about CCCI through personal connections like you. If you know of any students who might be interested, please let them know about CCCI.

Thank you for sharing this opportunity with your networks. More information on the internship schedule, program details, and how to apply are described in this 18-minute [CCCI Informational Webinar](#) and [CCCI Job Announcement](#). If you have any questions at all, please do not hesitate to reach out.

CA Coastal Commission Story Contest

**California Middle and High School Students:
Climate Storytelling Contest submissions are due
May 29, 2025**

Climate change, caused by the burning of fossil fuels like oil and gas, is impacting communities in California and across the globe. Different feelings often come up when thinking about climate change and it's easy to get lost in the data, graphs, and scientific literature. What if storytelling can help us understand those feelings and teach us something about climate change? The California Coastal Commission invites you to answer the prompt below through a **podcast, photo essay, or narrative essay**.

What are your feelings towards climate change? How can those feelings be turned into action?

Enter by May 29, 2025

[Visit the website](#) to find all the details on how to enter, brainstorming prompts, helpful background on climate change, climate justice, and climate solutions, and additional resources for educators.

We can't wait to hear your stories!

Sonoma Resource Conservation District

The Sonoma Resource Conservation District is hosting FREE for families to attend. It is on Saturday, May 10th from 10 am -2 pm at the Santa Rosa FFA School Farm, (across from the Cardinal Newman practice fields). This event will focus on the agricultural heritage of Sonoma County while also helping out a local high school program prepare their garden for their annual pumpkin patch!

We will be focusing on a spring celebration with an emphasis on Mother's Day weekend and would love to have you all share with your audiences and networks if possible! Plea come join the fun with your families for a fun farm day event! I've attached the flyers for you to share forward, the only request is to sign up via the Eventbrite page linked on the flyer and below.

<https://www.eventbrite.com/e/1318017368429?aff=oddtcreator>

North Bay Bear Collaborative

2025 Scat Survey, Training, Social and Project update

Dear Friends of the North Bay Bear Collaborative,

As spring blooms and our local bears forage, disperse, and mate, we invite you to our next event with the North Bay Bear Collaborative (NBBC). Join us for a Scat Survey Training and Social on Sunday, June 8, 2025, from 3:30 PM to 7:00 PM at Sugarloaf Ridge State Park. This is a fantastic opportunity to learn, connect, and contribute to our mission of studying black bear populations in the North Bay!

The Scat Surveys will take place between Late July and Early October in about 15 locations in the North Bay.

Event Details

When: Sunday, June 8, 2025 @ 3:30 PM to 7:00 PM

Where: Sugarloaf Ridge State Park, 2605 Adobe Canyon Road, Kenwood, CA (Main day-use picnic area)

Directions: [Google Maps Link](#)

Parking: Free; staff will direct you upon arrival

Schedule:

- 3:30 PM – 5:00 PM: Scat Survey Training
Designed for newcomers or those needing a refresher. Learn how to collect bear scat samples for DNA analysis to support our 2025 NBBC Scat Survey.
 - 5:00 PM – 7:00 PM: NBBC Update & Social
Hear about our latest findings, meet fellow bear enthusiasts, and enjoy a potluck social.
-

What to Expect at the Training

You'll gain hands-on skills to assist with our black bear population study, including:

- Basic Bear Ecology: Learn about bear behavior, tracks, and signs.
- Sample Collection: Master protocols for collecting hair and scat for DNA analysis.
- Field Procedures: Understand safety measures and protocols for working in remote bear habitats.
- Team Dynamics: Each team of 4–5 volunteers will include an experienced tracker as the lead.

Note: Fieldwork involves all-day hiking in rugged, remote areas. We'll provide printed protocols and data sheets for your reference.

What to Bring

- A journal and a pen/pencil for notes (if you are training).
 - A dish or snack to share at the potluck (sign up below)
 - Your enthusiasm for bears and conservation!
-

How to Get Involved

1. Sign Up: [Click here to register and learn more.](#)
 2. Spread the Word: Share this invitation with friends who may be interested in volunteering or learning more about the NBBC. We need a strong team of volunteers and supporters to make this sampling effort a success, as well as our efforts to keep the North Bay Bears Wild and Safe!
 3. Stay Connected: If you were forwarded this email, after you sign up, join our email list for updates at beingwithbears.org.
-

Questions?

- Training Details: Contact Meghan Walla-Murphy at phoksumdo.mwm@gmail.com
- Venue, Event, or Sign-Up: Reach out to John Roney at john@sonomaecologycenter.org or Maria Mauricio at maria@sonomaecologycenter.org or (707) 200-8134.

Master Gardeners:

May 3 event:

You and your family are invited to join the Master Gardeners of Sonoma County for a workshop and walking tour of the Los Guilicos Demonstration and Teaching Garden, designed to deepen your understanding of botany and how it relates to gardening.

We will delve into the fascinating world of plants as we explore their forms, functions, adaptation and ecological relationships throughout history. Topics include plant growth, flower form and function, and the basics of pollination biology. We'll conclude with a fun discussion about the diversity of fruits and vegetables.

Whether you're a novice gardener or have years of experience, this workshop will provide valuable insights for young and old alike into what's happening in your own garden. This is a free event.

Presented by the UC Master Gardeners of Sonoma County

Here's a link:

<https://ucanr.edu/site/uc-master-gardener-program-sonoma-county/event/botany-families-workshop>

Sonoma Co. Radio Amateurs:

There is an [amateur radio technician licensing class](#)

May 30, 31, June 1st.

The class will be held at Graton Fire 3750 Gravenstein Highway N, Sebastopol, CA 95472

Please contact Darryl Paule KI6MSP at ki6msp@gmail.com

The American Radio Relay League, ARRL, is sponsoring a [teachers institute](#) on wireless communications. This is a STEM based program.

Why Bring Amateur Radio into Your Classroom?

As a 21st century educator, there are too many demands for your attention and energy. Creating engaging lessons that align with your curriculum standards while holding the attention of your students in a meaningful way takes a lot of time. You need a topic that has multiple points of entry, customizable breadth and depth of content knowledge and is hands-on for a STEM unit. ARRL's Education and Learning Department is aware of your search and presents a solution.

Please contact Darryl KI6MSP at ki6msp@gmail.com for further information.

Come Join SCRA at Field Day 2025

June 28th, 29th

Why Field Day???

ARRL Field Day (FD) started back in the 1930s as a test of amateur radio operator's ability to work "in the field" under emergency-like conditions. FD has become one of the most popular events in ham radio and has grown beyond a mere test of our EmComm capabilities.

Field Day is a wonderful opportunity to experience many facets of amateur radio. From setting up a station and antennas to operating a contest, logging contacts, along with plenty of time to socialize.

The location for FD2025 will be Youth Community Park, 1750 Fulton Rd, Santa Rosa (across the street from Piner High School)

Hours of operation: This is a 24 hour event. Starting at 11:00 AM and ending at 11:00 AM

For further information contact Darryl Paule KI6MSP at ki6msp@gmail.com

CA. STATE PARKS POSTER CONTEST

Something new is coming to the fourth annual California State Parks Week: a poster contest! California students currently enrolled in grades K-12 can join in the fun this year by making a poster to have a chance to win a prize. The contest is open to California residents currently enrolled in grades K-12. To be eligible, entries must have a California State Parks theme and artwork must be the student's original work.

Entries must be uploaded to the poster contest [submission portal](#) by 5 p.m. PDT on May 9. A parent or guardian must approve and sign the online submission portal. Winners will be contacted directly and announced on the [California State Parks Week website](#) by early June.

There are five grade categories for awards: K-1, 2-3, 4-6, 7-9, and 10-12. Each category will have a first-, second-, and third-place winner selected. First-place prizes will consist of a California Explorer Vehicle Day Use Annual Pass for California State Parks, sponsored by the [California State Park Foundation](#). There will also be two honorable mentions awarded for each grade category. Honorable mention recipients will be awarded a certificate and will be featured, along with other winners and their selected artwork, on the California State Parks Week website, social media platforms and sponsor sites.

Find more information about the contest and the detailed submission guidelines [here](#).

Forestry Challenge

High Schools: Announcing pre-registration for [Forestry Challenge](#) - Fall 2025

Four event locations, one nearby, three others farther away:

Santa Cruz - October 8 to 11 - Redwood Glen near Loma Mar

Shasta - September 24 to 27 - Mountain Meadows Camp east of Redding

El Dorado - October 22 to 25 - Leoni Meadows Camp south of Placerville

San Bernardino - November 5 to 8 and 12 to 15 – Hubert Eaton Scout Reservation near Lake Arrowhead

Event is FREE!

Watch a one-minute [introductory video](#)!

The Forestry Challenge is an academic event for high school students in technical forestry and current forestry topics. Participants spend four days in the forest learning about the ecology and management of the forested landscapes that provide communities with water, recreational opportunities, wood products, and wildlife habitat. You can now complete [pre-registration](#) for any fall event in less than 5 minutes with our online form. For more about the program, visit the [Home](#) page of the Forestry Challenge website. There is no registration fee and substitute teacher and transportation assistance are available on an as-needed basis. School groups (typically 4 to 10 students and a teacher chaperone) are welcome to attend any event that is the best fit for location, school schedule, and interest.

Summer Institute for Elementary Teachers: Teaching NGSS-Aligned Climate Change Science (July 28-31 at Sonoma State University)

Did you know that California's Assembly Bill 285 will ensure that elementary schools have a course of study that includes the causes and effects of climate change and methods to mitigate and adapt to its effects?

This is the perfect time for elementary teachers to deepen their own understanding of climate change and learn how to teach Next Generation Science Standards through phenomena and storylines connected to climate change.

Participants will receive either 3 Continuing Education Units (CEUs) or a \$800 stipend (**limited availability**). You will also get free resources and activity ideas for teaching NGSS through climate change science, and work with others to outline a science unit connected to your district's adopted science curriculum. We encourage teams of 2-4 teachers at the same school site to apply together.

Apply at this link by May 31, 2025. <https://forms.gle/P8vYi1wTW5xb6w5S9>

For questions, email step@sonoma.edu

From the Sonoma Co. Office of Education *et al.*:

Science Teacher Leader Collaborative

An informal group designed to bring science educators from around the county together to share ideas and resources, ask questions and get feedback, receive updates on district, county and statewide NGSS news and explore how to be leaders and change agents in science education. All TK - 12 science educators are welcome! **Upcoming meeting: 5/14/25 (Virtual) 4:00pm - 5:30pm.** Contact Kelly Mackura at kmackura@scoe.org for more information.

SSU/SCOE Science Summer Institute Planning Relevant and NGSS-Aligned Phenomena and Storylines (July 28 - 31, 2025) Grade K-5

In this hands-on and minds-on institute for elementary teachers (K-5), educators will enhance their understanding of targeted NGSS disciplinary core ideas, science and engineering practices, and crosscutting concepts that relate to climate change science. They will also have time and support to plan a science unit "storyline" that you can apply to your respective district adopted science curriculum. 3 CEUs or \$800 Stipend available. (3 CEU or \$800.00 stipend) Register [HERE](#).

Sonoma Water/SCOE Climate Change and Resilience in the North Bay Teacher Workshop (June 16 - 20, 2025) Grades K-6

The Water and Energy Education Program at Sonoma Water in partnership with SCOE is inviting K-6 teachers to participate in a paid, 5-day workshop with local organizations working to address climate change in Sonoma County. Field trips will explore topics ranging from grassland restoration and land stewardship informed with Traditional Ecological Knowledge, to water resource security, changing ocean conditions, renewable energy and electrification, solutions-focused projects at school, and how to talk about climate change with students. Each day includes an afternoon work block with support from certified teachers to develop lessons and curriculum informed with NGSS. Participants will receive a \$700.00 stipend. More Information and registration [HERE](#).

Forestry Institute for Teachers (FIT)

The Forestry Institute for Teachers is one of the best professional development experiences that I've ever had. Not only is it educational, but it is also fun. Check out the website below.

Registration is \$125. That may sound like a lot but remember...for that you get a week's worth of education and food and lodging in a beautiful setting. AND, **if you do a simple project you can receive a stipend of \$300.**

FIT website:

https://webmail.sonic.net/?_task=mail&_caps=pdf%3D1%2Cflash%3D0%2Ctiff%3D0%2Cwebp%3D1&_uid=82706&_mbox=INBOX&_safe=1&_action=show

Science Uncorked

Science Uncorked is an outreach seminar series for the public, hosted at the wine and food bar Gourmet au Bay in Bodega Bay. Since 2013 Science Uncorked has hosted over 100 public lectures featuring scientists from Bodega Marine Laboratory (BML), from UC Davis main campus, and from the greater North Bay Area science community, including non-profits and government agencies. Come for the science, stay for the wine. Or vice versa!

Happy Hour starts at 4pm, food is served until 6pm.

Admission is free.

Brought to you by Bodega Marine Laboratory and Gourmet au Bay

Find us on Facebook for regular updates: www.facebook.com/ScienceUncorked, or email us at ScienceUncorked@gmail.com

Gourmet au Bay: 1412 Bay Flat Rd. Bodega Bay, CA 94923

Schedule:

May 8, 6pm - Katie Woolery - One With The Wild: Sonoma County Wildlife Rescue and its Support Programs

May 22, 6pm - Karolina Zabinski - Mama didn't raise no guppy! Transgenerational effects of seagrasses under ocean warming

June 5, 6pm - Zeke Spooner - Learning about microplastics in the local marine environment as a community

CA State Parks Sonoma-Mendocino Coast District Volunteer opportunities

June 7 will be Navarro by the Sea Day and volunteer help will be needed to put it on, and June 15 let's celebrate fathers while cleaning up the Navarro River Watershed!

There are also opportunities with the **Fort Ross Conservancy** at Fort Ross State Historic Park and Salt Point State Park! Please contact Dr. Dione Deaker for more information at dioned@fortross.org

The **Hendy Woods Community** needs volunteers for the Visitor Center this summer and also docents to lead interpretive walks on Saturdays.

The **National Science Teachers Association** has a series of webinars planned for the spring. Some are free; others have a fee. Check them out at: https://webmail.sonic.net/?_task=mail&_caps=pdf%3D1%2Cflash%3D0%2Ctiff%3D0%2Cwebp%3D1&uid=86185&_mbox=INBOX&_safe=1&_action=show

SSU Summer Math Teaching Institute:

HOW NUMBERS DANCE: HARMONIZING MATHEMATICS, DATA CONTEXTS, & THE CA MATHEMATICS FRAMEWORK SUMMER INSTITUTE FOR TK - 5TH GRADE TEACHERS

Swing into Summer Learning with Sonoma State University (SSU), the Sonoma County Office of Education (SCOE), and the California Math Project: North Coast (CMP:NC)! Dive into a dynamic summer institute July 28–July 31st. Explore where math meets data science, enhancing relevance and authenticity for students in today's data-driven world. Our focus aligns with the CA Mathematics Framework, emphasizing justice-oriented teaching to foster cultural relevance and belonging.

Let's revolutionize math and data science teaching together! Participating teachers receive an \$800 stipend. Institute held at Sonoma County Office of Education.

To register, or for information, go to: <https://bit.ly/MATHSCIENCEINSTITUTE>

Sonoma State Historic Park

Nature Hike. Saturday, May 24th, 11:30am-1:00pm

Experience history, nature, and community lead by a Park Interpretive Specialist. This slow-paced hike on the lower Montini Trail is a little over one mile in length with minor elevation changes. (Sturdy shoes and water recommended). Meet at the Vallejo Home parking lot at the end of 3rd Street West at 11:15am. All ages welcome. Free of charge, no reservation needed.

BODEGA MARINE LABORATORY

invites you to join us for public tours on Friday afternoons!

IMPORTANT:

Due to limited capacity, you must reserve a date and time to take part in a tour. Additional dates will be added soon. To reserve your spot visit:

<https://www.eventbrite.com/e/public-tours-of-bodega-marine-laboratory-registration-622690533147>

About the Event:

When: Fridays, starting at 2pm

Where: 2099 Westshore Rd. Bodega Bay, CA 94923

What will I see?

These tours are led by our wonderful crew of ocean-loving docents, and visitors will learn about ongoing marine and coastal science research at Bodega Marine Laboratory and its history on the Sonoma Coast. Plus, you'll get to meet a variety of colorful and diverse ocean creatures.

Who's invited?

Although we welcome all ages, these tours are best for people who are school-aged and above. Dogs and other pets are not allowed, with the exception of service animals.

Public tours are only available by reservation. If your preferred tour time is already full, you can place your name on a waitlist through Eventbrite to claim a spot if one becomes available.

If you are interested in arranging a tour for a school or other group of 10 or more people, please contact alcarranza@ucdavis.edu instead of booking through the public tour reservation system.

What else should I know?

As you drive up to the lab, please be mindful that we are on the Bodega Marine Reserve, a protected home for many marine and terrestrial creatures. We ask that you reduce your speed to the posted limits and watch out for wildlife.

While on the tour, please stay with your group and do not explore on your own, as parts of the laboratory and reserve contain sensitive organisms and research data that are easily damaged.

Does the tour cost money?

We provide our public tours free of charge, but donations are encouraged and appreciated. Donations are critical to supporting the care and maintenance of the aquaria and animals you will see during your tour.

If you would like to make a gift, you can do so by selecting the donation option when you reserve your tour spot or visit our website to learn about more ways to give: marinescience.ucdavis.edu/give

Some interesting reading:

The April/May issue of **Smithsonian** magazine includes articles on:

- The Smithsonian's Center for Short-Lived Phenomena
- Colorful diamonds
- Attempts to find new varieties of coffee beans that will do well in a changing climate
- Native bee species

National Geographic magazine now opens with a series of outstanding photographs called "In Focus." The photos typically include images from the oceans, wildlife, culture, and nature. They would be great to share with students by posting or possibly removing the captions and then passing them around the class asking the students to try to figure out what they show.

The May **National Geographic** magazine has articles on:

- Penguins (cover article)
- Tree sloths
- American burying beetles
- "Who Gets to Dig for Dinosaurs?"
- "Australia's Great Big Camel Conundrum"

Science in the News from Sigma Xi

Sigma Xi is a science honor society. You can sign up to receive their **bi-weekly** science e-newsletter at: <https://www.sigmaxi.org/news/newsletters>

Some recent stories:

- Study shows evidence of Roman gladiator fighting a lion
- Bobonos reject unequal reward distribution
- Bronze age marks early grape domestication in Italy
- Moderate-intensity tasks may improve heart health
- Coastal models show resilience of atolls in the Maldives
- Engineered bacteria glow to signal soil pollutants
- Lifestyle habits may affect health beginning at age 36

Something new from Sigma Xi:

How to launch a
STEAM Program
at Your District

Register Now

Join our webinar on April 24th

Thinking about building a STEAM program next year and not sure where to start? Join us at 3:30 PM EST to learn how to implement a program that drives student outcomes. [Register Now](#)

Sci Tech Daily

Sci Tech Daily is a (you guessed it...) **daily** brief summary of current events in a variety of science fields, including general science, health, space, technology and others. (scitechdaily.com)

Among many others, the April 28 edition included:

- Melting ice sheets may have supercharged continental drift
- Scientists warn of imminent climate tipping points
- Antarctica's astonishing rebound: Ice sheet grows for the first time in decades
- UCLA tests wearable "brain booster" for hard-to-treat ADHD cases

• **TED Talks: Science Worth Knowing:**

- New science-related talks are frequently posted.
- check it out at <https://www.ted.com/topics/science>

Science Humor:

If I go to a website and select "accept all cookies," can I request chocolate chip?

Hot (Cool?) Links:

The San Francisco Bay Chapter of the American Cetacean Society frequently posts interesting opportunities to join webinars or other events. In March they had a webinar titled “Baja in Spring – An Extravaganza of Marine Life.” Here’s their blurb and the link:

[Learn More and Watch](#)

For our March presentation, Marine Biologist Marc Webber was fresh off his annual Spring boat trip leading whale lovers down the Pacific coast of Mexico and up the Gulf of California.

Marc shared his knowledge and photos from what truly was an extravaganza and celebration of marine life. Participants were able to see birthing sites of gray whales and witness the season's burst of life with blue whales, humpbacks, dolphins, seabirds and pinniped species that include elephant seals, Guadalupe fur seals, California sea lions and more.

Live and Learn

(in which Mike shares something that he's recently learned.)

I just finished reading a book titled *The Wager – A Tale of Shipwreck, Mutiny, and Murder*, by David Grann. Not my usual reading fare, but I found it interesting. It’s about an ill-fated mission undertaken in 1740 by British ships in a quest for treasures carried by Spanish ships in the Americas. I even learned a bit of science. A couple of examples:

- I knew that scurvy was a disease caused by lack of vitamin C, but didn’t know what it actually did. It causes the body to stop producing collagen, which holds bones and tissues together. It also involved with the production of dopamine. I won’t get into details, but it sounds like a terrible disease. The ships carried from 250-500 men each and lost about half of their crews to scurvy!
- I knew that the passage around Cape Horn, at the southern end of South America, was especially treacherous, but Grann provides some explanation. The southern sea(s) that surround Antarctica provide for uninterrupted flow around the globe, with waves and wind building over 13,000 miles. When they get to Cape Horn, they are squeezed into a narrow passage between South America and the Antarctic Peninsula. The currents move over four billion cubic feet of water per second, more than six hundred times the discharge of the Amazon River. The winds can reach 200 miles per hour. There’s also a sudden decrease in depth, going from 1300’ to about 300’, which results in huge waves, often with ice bergs floating among them. Add to that rain, fog, sleet, snow, thunder and lightning, and it sounds horrific, especially if you’re in a wooden wind-powered boat with a depleted and weakened crew!

Jobs:

Wonder Camp Intern:

The **Children's Museum of Sonoma County** is looking for a dynamic, enthusiastic, and creative **Wonder Camp Intern** to join our Wonder Camp team for the summer! As a Wonder Camp Intern, you will play a key role in supporting the day-to-day experience of children ages 6–12 in a fun, hands-on camp environment. This is a fantastic opportunity to gain experience in informal education, child supervision, and museum operations while fostering creativity and imagination through play-based learning.

<https://www.cmosc.org/job/stem-intern/>

Wonder Camps Lead:

The **Camps Lead** will play an integral role in the day-to-day operation of summer camps at the Children's Museum of Sonoma County. This position is ideal for someone with teaching experience and classroom management experience, who is passionate about leading children in an educational environment and ensuring a safe and engaging camp experience. The Camps Lead will supervise campers, facilitate and teach camp curriculum, and provide leadership and guidance throughout the camp sessions. This position reports to the Camps & Volunteer Manager.

<https://www.cmosc.org/job/camps-lead/>

Science and Environmental Education Organizations

These organizations offer science or environmental education opportunities and/or **volunteer** or **citizen/community science** opportunities.

If I know of **volunteer** or **citizen/community science opportunities**, I've indicated that, but some may have opportunities about which I don't know.

Check their web sites for more information.

American Cetacean Society

Description: As the name implies, the ACS works to protect cetaceans (whales, dolphins, porpoises), and also supports research.

Web site: The San Francisco Bay chapter's website is: <https://www.acs-sfbay.org/>

Aquarium of the Bay:

Aquarium of the Bay has opened their programming for the 2023-2024 school year. K-12 schools can book either Aquarium-Teacher lead classroom programs (fee-based) or Self-Guided Tours (free, extra chaperones are not included).

Available Programs:

Kinder – Between the Tides: Learn about the animals that live in the tidepool and the adaptations they have to survive their changing world.

1-3rd – Salmon!: Follow the salmon lifecycle from egg to the end and discover how human impacts affect its life journey.

3-5th -Sensational Sea Lions: This outdoor, sense-based program guides students on the scientific journey of wildlife observation. Learn about and observe the World-Famous Pier 39 sea lions. How did they get here, why they stay here, and above all, what makes them such amazing animals.

6-8th – Kraken Lab: Our newest program is quickly becoming very popular with Middle Schools. Come and participate in a squid dissection and learn the ins and outs of this unique animal.

9-12th – 3D Printing Lab: This brief introduction to 3D printing enables your students to learn a little history on 3D printing as well as help print plates that will be used to aid the non-visual community. Note: This program is limited to a maximum of 28 students (2-Sessions of 14 students each, on the same day)

K-12th – VIP School Group Tour: This special tour of the building is held before the Aquarium opens and enables students to see the work that is often not seen by the public. This tour is limited to 25 participants and is not bookable on the website. Please email us for more information

K-12th – Self-Guided Tour: While this tour is booked on 20-minute intervals, the tour length is 1 hour. Your class will be able to go as fast or as slow as you would like which makes it perfect if you only have a limited amount of time.

Email education@bay.org for more information on any of these programs

Visit <https://www.aquariumofthebay.org/> and under the Education tab, find K-12 programs, teacher resources, eLearning modules, Plastic Free Campus, and Professional Learning Courses.

Aquarium Education Programs Webpage: <https://www.aquariumofthebay.org/teachers/k-12-programs/>

Audubon Canyon Ranch

Our Mission

Connecting nature, people and science in a rapidly changing world

Our Vision

Inspired and informed communities use scientific knowledge to build a resilient, sustainable society that respects the intrinsic value of our natural world.

They have several sites:

- Bouverie Preserve, Glen Ellen
- Cypress Grove Preserve, Marshall
- Martin Griffin Preserve, Stinson Beach
- Modini Preserve, Healdsburg

Volunteer Opportunities: <http://www.egret.org>

Audubon Society

(Madrone Audubon Society Chapter)

We promote public education, enjoyment, study and protection of the natural world, especially birds.

Check out the Madrone Audubon Society's schedule of walks and other events at: www.madroneaudubon.org

The *Madrone Leaves* newsletter has information about coming events and a variety of conservation issues.

California Coastal Commission

Mission: Protecting & Enhancing California's Coast

The Commission is committed to protecting and enhancing California's coast and ocean for present and future generations. It does so through careful planning and regulation of environmentally-sustainable development, rigorous use of science, strong public participation, education, and effective intergovernmental coordination.

Check out these resources from the California Coastal Commission:

Environmental Education Events Calendar

The California Environmental Education Interagency Network maintains a calendar of events and opportunities relating to environmental education. Find an event or submit yours to the calendar.

California Coastal Voices

A project-based learning guide and online toolkit for middle and high school teachers. Consisting of six units (or "projects") that introduce students to coastal conflicts, challenges, and scientific and policy issues, the emphasis is on problem solving and communication. This learning guide was designed to address California's Next Generation Science, Common Core, and History-Social Science standards. Download teacher resources and student activities and access slideshows, videos, articles, and much more.

Find Lots More [Educator Resources](#) online.

California Naturalist Program

The UC California Naturalist Program is designed to introduce Californians to the wonders of our unique ecology and engage the public in study and stewardship of California's natural communities. The California Naturalist program uses a science curriculum, hands-on learning, problem-solving, [citizen science](#), and community service to instill a deep appreciation for the natural communities of the state and to inspire individuals to become stewards of their local resources.

The mission of the California Naturalist Program is to foster a diverse community of naturalists and promote stewardship of California's natural resources through education and service.

The California Naturalist Program promotes environmental literacy and [stewardship](#) through [discovery](#) and [action](#). Many other states have similar naturalist programs, but this is the first statewide program in California. To [become a certified California Naturalist](#), participants need to enroll in a 40+ hour course with one of [our partner organizations](#).

We work with over 45 partner organizations that deliver the course and have certified a community of over 2800 Naturalists around the state who have, in turn, volunteered over 175,000 hours in service to nature in the areas of education and interpretation, stewardship, citizen science, and environmental program support. Courses combine classroom and field experience in science, problem-solving, communication training and community service. Students are taught by an instructor and team of experts who are affiliated with a local nature-based center or natural resource focused agency. Upon completing certification requirements, participants are eligible for four academic credits through [UC Davis Extension](#) for an additional nominal fee.

Some CalNat programs are offering online or hybrid programs. See below.

has a high school program called eco2school. Check it out at: <http://www.eco2school.org>

Children's Museum of Sonoma County

<http://www.emosc.org/>

Mission

The Children's Museum of Sonoma County inspires curiosity and creativity through joyful, transformative experiences.

About Us

The Children's Museum of Sonoma County (CMOSC) was founded in 2005. Rooted in current early childhood research, CMOSC engages children in joyful discovery experiences that develop foundational skills, create lasting memories, and spark a lifelong love of learning.

Designed for children and their caregivers, the Children's Museum's experiential exhibits emphasize hands-on engagement and learning through play with a focus on art, nature, and science.

The Children's Museum proudly supports the work of parents, caregivers, and educators in raising happy, healthy, and strong children. Since opening its doors in 2014, it has become a valuable cultural resource and destination for Sonoma County.

Coastwalk California

Mission

To ensure the right of all people to reach and responsibly enjoy the California coast. We are a California-wide non-profit volunteer driven organization that advocates for public access to our coast via the California Coastal Trail and offers educational & fun Coastal Trail guided hiking and camping adventures.

Vision

A well-stewarded California coast, highly prized as an irreplaceable commons, open for responsible use to all.

www.coastwalk.org phone: 707-829-6689

Community Resources for Science

CRS helps teachers build on that enthusiasm and bring meaningful science learning experiences to life in their classrooms. Children have a natural curiosity and a craving to learn. CRS works to nurture that learning by connecting classroom teachers with scientists, museums, enrichment providers, and professional development programs in order to bring more science learning experiences to students. CRS also helps individuals and organizations involved in science education to work together and become stronger partners for teachers and schools.

We have compiled some resources for teachers that we thought might be useful as we face school closures and move to more online learning opportunities while we practice "social distancing" in the wake of the spread of COVID-19.

<https://www.crscience.org/>

Community Soil Foundation

Student-Grown Farm Stand

Community Soil Foundation's mission is to cultivate the wellness of Sonoma County communities by offering land-based education, creating access to organic produce, and regenerating habitat and natural resources. We invite you to come to the Larkfield Community Garden & Learning Center every Wednesday afternoon for your weekly supply of nutritious, organic produce. All fruits, veggies, and flowers are grown by Mark West students and community volunteers using biodynamic and sustainable methods, with proceeds helping fund the garden. All sales are by donation. Look for our Farm Stand at 450 Noonan Ranch Lane and check out other happenings at www.communitysoil.org.

Volunteer Opportunities

CREEC

The California Regional Environmental Education Community (CREEC) Network is a program of the California Department of Education. The CREEC Network fosters regional partnerships throughout the state of California to promote environmental education and environmental literacy by providing teachers with access to high quality professional learning opportunities and education resources.

Along with statewide sponsors and partners, each of the 11 California CREEC Regions provides professional learning opportunities and resources to educators as well as foster communications among schools and organizations interested in supporting the environmental literacy of California's teachers and students. More information on the CDE's CREEC Network program is posted on the [CDE website](#).

Different areas of the state have different CREEC Regions. For information about events in your region, go to: www.creec.org, and select "regions" at the top

Daily Acts

Who We Are

We are a holistic education nonprofit that takes a heart-centered approach to inspiring transformative actions that create connected, equitable, and climate resilient communities. We believe in the power of our daily actions to reconnect people to self, community, and place, which helps to heal our society and planet.

Our Mission is to inspire transformative action that creates connected, equitable climate resilient communities.

Our Vision is to create healthy, just and sustainable communities built upon the daily actions of many people.

East Bay Regional Park District

The East Bay Regional Park District is a system of beautiful parklands and trails in Alameda and Contra Costa counties to the east of San Francisco. The system comprises nearly 125,000 acres in 73 parks, including over 1,250 miles of trails and 55 miles of shoreline. We acquire, manage, and preserve natural and cultural resources for all to enjoy now and into the future. Our parks are ideal for healthful recreation and environmental education. We invite you to enjoy hiking, biking, picnicking, horseback riding, camping, fishing, boating, golfing, and nature study in our parks. General Brochure [PDF]

<https://www.ebparks.org/>

Education and the Environment Initiative

Who We Are

The California Education and the Environment Initiative is a program of CalRecycle's Office of Education and the Environment (OEE). Our mission is to foster environmental literacy among all California students as part of a high-quality K-12 education. Environmental literacy builds critical thinking and analytic skills that prepare students to make informed decisions about issues affecting our world, and readies them for college and career success.

Our key environmental literacy implementation partners include the California Department of Education's California Regional Environmental Education Community Network and Ten Strands, a nonprofit organization that supports environment-based learning

Forestry Challenge

The Forestry Challenge is an academic event for high school students in technical forestry and current forestry topics. Since its inception in 2003, the program has grown from one event to five, a complete buildout of the program in California.

Participants spend four days in the forest learning about the ecology and management of the forested landscapes that provide communities with water, recreational opportunities, wood products, and wildlife habitat. Youth benefit by better understanding the relationship of the forested environment to their community, by exposure to natural resource management as a potential career option, and by undertaking a rigorous critical thinking exercise which is timely and addresses current forestry topics such as wildfire, insects, and forest health.

Friends of the Petaluma River

WHO WE ARE

In 2005 Friends of the Petaluma River was formed to connect our community with the wonders of the Petaluma Watershed. While much of our work is focused on conservation and education surrounding this sensitive habitat, we also believe that celebration plays a large role in our mission. Through events at the River Heritage Center, family programming around the Watershed and access opportunities for the public we bring our Watershed to life.

Our Mission

Our mission is to celebrate the Petaluma Watershed through education and stewardship; because every great River needs a true Friend.

Our Goals: Access, Education, and Conservation

- To pursue outreach and educational activities that will nurture enthusiasm and commitment in the watershed for long term sustainable stewardship.
- To monitor conditions and engage in activities that will reduce or prevent pollution and lessen other harmful impacts on the River and its wetlands.
- To foster a River Heritage Center as a community resource. A place to archive information, host events, administer programs, and coordinate river related activities.
- To promote access to the Petaluma River and Marsh for all community members to experience the beauty of this resource for themselves

*Are you incorporating environmental education into your classroom?
Or would you like help developing and implementing a project about the Petaluma Watershed?
Let the Watershed Classroom support you!*

Green Schoolyards America

Green Schoolyards America seeks to transform asphalt-covered school grounds into park-like green spaces that improve children's well-being, learning, and play while contributing to the ecological health and resilience of our cities. We are working to change the norm for school ground design, use, and management so that all children will have access to the natural world in the places they already visit on a daily basis.

Our programs support the living school ground movement, build relationships that help it succeed, and work to embed this perspective in our existing institutions and policy and regulatory frameworks.

Slide Ranch (Marin County)

The mission of Slide Ranch (on the Marin Coast in Muir Beach) is to connect children to nature. We cultivate healthy bodies and minds and foster future generations of environmental stewards. By farming, cooking, caring for animals and exploring wilderness and the coast, we teach people of all ages to see the connection between their own health, a healthy food system and a healthy environment.

Go to: <http://slideranch.org/>

Sonoma Birding

Mission Statement – Sonoma Birding ∞ Sonoma Nature was founded in 2004 in Sonoma Valley, CA. as a volunteer “citizen science” based conservation organization that establishes sustainable bird

and nature related festivals, activities, and programs for all ages, through a variety of partnerships in Northern California and throughout the United States and Canada.

Citizen Science Opportunities

Volunteer Opportunities

For information, go to www.sonomabirding.com

Sonoma Co. Agriculture & Open Space Preservation District

The District partners with several environmental and outdoor education organizations. For more information, go to the District Web site (<https://www.sonomaopenspace.org/>) and select Education and Outreach in the Get Involved tab.

Some of the programs are:

- FARMS Leadership (with Sonoma Resource Conservation District)
- Learning Laguna (with the Laguna Foundation)
- In Our Own Back Yard (with LandPaths)
- Teaching Environmental and Agricultural Memories (with Gold Ridge Resource Conservatin District)
- Wildlife Defenders (with Sonoma Ecology Center)

Sonoma County Astronomical Society

The Sonoma County Astronomical Society is an amateur astronomy club. They have telescope viewing programs and a variety of public outreach programs.

<https://www.go-astronomy.com/astronomy-club.php?ID=479>

Sonoma County Library

The Sonoma County Library often has programs that are science related. Select the Events tab at:

<https://sonomalibrary.org/>

Under that tab they have a “calendar” and a “list” choice. I find the list easier to use.

Note that you can also search by **location** or by the *title* of the program.

Upcoming events include such things as the following, most of which occur at different branches throughout the month.

- presentations by Sonoma County Master Gardeners
- Lego Club
- Hour of Code (Maker Studio)
- Build Club

- gardening for kids

Sonoma County Office of Education Science Ed. Offerings

SCOE occasionally science-related classes for teachers on their Web site (www.scoe.org):

Sonoma County Regional Parks

The Sonoma County Regional Parks offer a wide variety of activities, many of which are science or nature-related. Go to: <http://parks.sonomacounty.ca.gov> and scroll down to “Upcoming Events”.

Some activities are purely recreational, some provide opportunities for community service, and all are educational!

Environmental Discovery Center Drop-in: Every Wednesday-Sunday

Volunteer Opportunities

Sonoma County Water Agency

They have a redesigned Web site and increased resource listings. go to:

<https://www.sonomawater.org/education>

Sonoma Ecology Center and Sugarloaf Ridge State Park’s Team Sugarloaf

Sonoma Ecology Center works to address challenges related to water supply and quality, open space, rural character, biodiversity, energy, climate change, and a better quality of life for all residents. Since 1990, we’ve worked to increase appreciation and stewardship of Sonoma Valley’s natural heritage and create measurable benefits in areas of land, water, climate change and biodiversity.

Vision

We envision a future where people, land, water, and wildlife thrive.

Mission

Our mission is to work with our community to identify and lead actions that achieve and sustain ecological health in Sonoma Valley.

Robert Ferguson Observatory:

Robert Ferguson Observatory is continually looking for new docents and volunteers of all ages to help bring the universe to the public. The Observatory is run by the Valley of the Moon Observatory Association, a 501(3)(c) non-profit, and has offered outreach-based astronomy and science programs to the public for almost 25 years. RFO is almost all-volunteer run and typically serves about 9,000 visitors annually. The observatory is located in Sugarloaf Ridge State Park and

houses a 40-inch reflector telescope, the largest telescope in Northern California that is accessible to the public; a robotic 20-inch research-grade, "CCD" telescope; and an 8", two-meter long refractor telescope. Prior experience or knowledge in astronomy is not necessary. Please go to rfo.org, click on "Volunteer" and fill out the volunteer application form online to get on the list for our next docent orientation and training! Questions? Contact Stephanie Derammelaere at 707-333-1331 or at sd@rfo.org.

Volunteer Opportunities

Sonoma Land Trust

The Sonoma Land Trust offers a variety of educational outings and volunteer opportunities for the public on protected lands. Check them out at: <https://sonomalandtrust.org> (select the "Explore" tab for the calendar)

Volunteer Opportunities

Citizen Science Opportunities

Sonoma/Petaluma State Historic Parks

While the Sonoma/Petaluma area state Parks primarily focus on history, they do have some science/environmental events and offerings such as twilight nature hikes.

For info, go to www.sonomaparks.org

Sonoma State University:

The Sonoma State University School of Science and Technology has a periodic online newsletter that gives news about the school and includes a link to the various department public speakers and events.

The link for the **speakers/colloquia** is: <http://www.sonoma.edu/scitech/pls/>.

SSU Center for Environmental Inquiry:

The Center's mission is to create an engaged and environmentally ready society, one where everyone has the skills to find solutions to the challenges facing the earth.

With the complex issues before us, such as climate change, overuse of resources, and declining biodiversity, we need to be awake, prepared and engaged. We need to know how to work across sectors and find innovative ways forward.

There is good evidence that we are not ready. Intuitive understanding of ecosystem processes is at an all-time low, and many professionals entering the workforce are not prepared to problem-solve or aware of the impact of ecosystems on economy and culture.

Citizen Science Opportunities

Volunteer Opportunities

<https://cei.sonoma.edu/>

Water Education Foundation

<https://www.watereducation.org/>

Wildcare

Wildcare is a (primarily) Marin County organization dedicated to the care and protection of wildlife. They have a variety of programs for teachers and volunteers.

Volunteer Opportunities

Check out Wildcare at: www.discoverwildcare.org

Wildlands Conservancy/Jenner Headlands Preserve Events

Relatively few people know about the Jenner Headlands Reserve on the Sonoma Coast. It is a beautiful place, and they provide some great opportunities.

Volunteer Opportunities

http://www.wildlandsconservancy.org/preserve_jenner.html

RESOURCES:

Bay Area Teen Science

this site posts opportunities for teens to get involved in science in a variety of ways. Although many of the postings are now outdated, they can still provide ideas and sites for teens to check back with later.

<http://bayareateenscience.org/>

Bay Model Visitor Center

The San Francisco Bay Model, in Sausalito, is a scale model of the San Francisco Bay. It is used for scientific research and modeling, and is also available for school tours. They also offer a variety of events and programs. Go to:

<http://www.spn.usace.army.mil/Missions/Recreation/BayModelVisitorCenter.aspx>

Brain Pop

Subscription based lessons on a wide variety of topics. <https://www.brainpop.com/>

California Academy of Sciences

The CalAcademy has a variety of programs that would be of interest to youth who are interested in science. They include

- Teen Science Night Digital Learning Tech Teens
- Careers in Science Intern Program
- Teen Advocates for Science Communication (volunteer program)
- Teen Think Tank Science Action Club

Find out more at: <https://www.calacademy.org/youth-programs>

CA Department of Fish and Wildlife Hatchery Education Program

The Hatchery Education Program offered by California Department of Fish and Wildlife's has opened their Fall enrollment period. Apply now for a free one hour session of multimedia learning about fish, watersheds & more! Dynamic activities illustrate key concepts and encourage critical thinking with subject matter aligned with learning standards specific to grade level. The application for Fish Academy, a guided activity based learning day at Don Clausen Fish Hatchery at Warm Springs Dam in early 2017, is also available now. Contact Sastra McGinley at sastra.mcginley@wildlife.ca.gov or (707) 280-3084 or visit www.wildlife.ca.gov/Regions/3/HEP

CA. Department of Parks and Recreation

The California Department of Parks and Recreation has several “Guides for Educators” available that may be of interest to *Grapevine* subscribers. These include resources for teaching about both historic parks and natural parks. Some are available for downloading, including some that I (Mike Roa) wrote. I can provide workshops/staff development on those that I wrote. You might be interested in taking a look at:

[The Conifer Connection: A Resource for Learning and Teaching about Coniferous Forests and Watersheds](#)

[A Guide to the Side of the Sea: A Teacher's Guide for Field Trips to Rocky Intertidal Areas](#)

[Redwood Ed: A Guide to the Coast Redwoods for Teachers and Learners](#)

[A Teacher's Guide to Sonoma State Historic Park](#)

[Allensworth: A Piece of the World, A Teacher's Guide with Student Lessons and Resources](#)

[California State Capitol Museum School Packet \(Teacher Version\) \(Student Version\)](#)

[Governor's Mansion State Historic Park Teacher's Guide](#)

} I wrote these three.

Climate Change Educational Materials from the U.S. E.P.A.

Find [climate education teaching tools](http://go.usa.gov/3AVx9) (<http://go.usa.gov/3AVx9>) and introduce your class to a [Student's Guide to Climate Change](http://go.usa.gov/3AV3G). (<http://go.usa.gov/3AV3G>)

Environmental Protection Agency Resources

The U.S. E.P.A. has a variety of resources that you may find useful. Check them out at:
usaepa@service.govdelivery.com

U.S. E.P.A.

Activity Book for Elementary Age Students

How do you describe to students what the EPA does?

Use our newest activity book for elementary age students to help introduce them to EPA. Kids can learn about the different ways the EPA works to protect our environment and our health. It's a simple, straightforward guide suitable for children of all ages.

Download the PDF. (<https://go.usa.gov/xn946>)

Find more downloadable and hardcopy resources at the [National Service Center for Environmental Publications](https://www.epa.gov/nscep). (<https://www.epa.gov/nscep>)

Evolution Videos

Shape of Life offers FREE classroom videos depicting the evolution of the animal kingdom on planet earth. Students and educators from all over the world explore animal adaptation, animations, and behaviors along with the amazing scientists who bring their stories to life. We also offer a rich selection of NGSS materials including lesson plans, readings, illustrations and activities that inspire a deeper dive into the phyla that explain so much of our existence.

<http://www.shapeoflife.org/>

Geothermal Education Resources

The Geothermal Education Office, in Tiburon, has a wealth of teacher resources on geothermal energy, including slide shows, videos, classroom materials, maps, lists of web sites, and more. go to: <http://geothermaleducation.org/> or contact them at: 24hrcleanpower@gmail.com

Headlands Institute/Naturebridge...Sausalito

A variety of environmental science opportunities for grades K-12 are available at the Headlands Institute. They also have professional development workshops for teachers (formal and non-formal), and a variety of classroom resources. Go to: <http://www.naturebridge.org/golden-gate>

iNaturalist

iNaturalist is a Web site that allows **citizen scientists (like you and your students!)** to post pictures and information about plants, animals, and other science that they see in their yards and travels. It is a GREAT site for your students to not only explore but to contribute to. Go to: www.iNaturalist.org

An example of the use of iNaturalist at the Jenner Wildlands Preserve can be seen at:

http://www.inaturalist.org/projects/jenner-headlands-preserve-inaturalist-notebook?utm_source=Jenner+Headlands+Community+Meeting+2015&utm_campaign=JHP+Analytics&utm_medium=email

and another example can be found at: www.protecthabitat.com

Resources from the Marin Co U.C. Cooperative Extension Service

The Marin County U.C. Cooperative Extension Service has teaching materials on a variety of topics, including sudden oak death, trees/forestry, stewardship, agriculture, and more.. Go to:

http://cemarlin.ucanr.edu/Programs/Custom_Program816/Environmental_education_resources/

Marin Co. Resource Links:

The County of Marin has compiled a list of environmental education resource links for adults and for kids. Go to: <http://www.marincounty.org/depts/pw/divisions/mcstoppp/archive/resources-for-schools>

Marin Master Gardeners Dig It. Grow it. Eat it. A workshop

A one-day workshop on edible plants and nutrition for third and fourth graders, led by UC Marin Master Gardeners and held at the Marin Art and Garden Center. Students will learn to identify edible plant parts and about how plants grow, including the science of pollination and propagation.

- **Station 1 - Edible Plant Parts**
- **Station 2 - How Plants Grow**
- **Station 3 - Plant Seed Science**
- **Station 4 - Plant Propagation**
- **Station 5 - Get in the Dirt**
- **Station 6 - Plant Pollination**

If you are interested in this program, please contact UC Marin Master Gardeners Help Desk.

Email: HelpDesk@MarinMG.org, or call: (415) 473 – 4204

Marin – Sonoma Mosquito Abatement District

Free Science Presentations

The Marin/Sonoma Mosquito & Vector Control District offers free presentations about vectors (mosquitoes, yellowjackets and ticks) to any school in Marin and Sonoma Counties. The presentations focus on the biology of vectors and how students can protect themselves from these critters. Visit <http://bitly.com/educationdept> for more information, or contact Eric Engh at erice@msmosquito.com to be added to our scheduling list.

Mystery Science (a.k.a. Mystery Doug)

Lessons based on searching for answers to questions on a variety of topics. Schools or teachers can try out some of these lessons for free. Fee for unlimited access.

www.mysteryscience.com

Ocean Currents Radio Program

The first Monday of every month Cordell Bank National Marine Sanctuary produces a live radio program on Community Radio for West Marin called Ocean Currents. Hear from ocean experts as you learn about the importance of a healthy ocean.

Broadcast live in the West Marin listening radius and live online at www.kwmmr.org, 1-2 pm. The shows are all archived on the Cordell Bank sanctuary [website here](#), or you can subscribe to the podcast.

Looking for a good resource online to get ocean wildlife photos for educational use?

Check out the [National Marine Sanctuaries online media library](#)

Download photos and video footage for free for educational use and check out the marine sanctuaries online encyclopedia. There are 4 National Marine Sanctuaries in CA. Do you know which ones are closest to you?

NOAA Resources for you

The folks at the Cordell Bank National Marine Sanctuary and the National Oceanographic and Atmospheric Administration (NOAA) have a variety of resources and opportunities available. Check the opportunities out at <http://cordellbank.noaa.gov>

Planet Bee Foundation

[Planet Bee Foundation](#) is a Bay Area nonprofit dedicated to creating a green-minded generation through environmental stewardship, using the lens of the struggling honey bee to teach the power of individual action. We have expanded our offering of hands-on educational programs, each of which can be individually tailored to fit a school's needs, wants, and location. Every lesson is in line with Next Generation Science Standards and grounded in the philosophy of E-STEM learning. We are now taking sign-ups for the 2018-19 school year! Our calendar fills up quickly, so check out our website at planetbee.org and sign up now!

Planet Bee now offers one-day and year-long programs. The [school program overview page](#) on our website lays out each program offering, their alignment with E-STEM and NGSS, and our updated pricing structure. Need-based discounts and sponsorships are available.

All of our programs are developmentally appropriate and designed to address all learning styles. Most programs involve observation of (contained) live bees, games, hands-on activities, and plenty of room for inquiry, creativity, exploration, and discussion. We focus on conservation techniques and environmentalism in every program.

One-day workshops include: [Humble Honey Bee](#), [Bee-ometry](#), [Native Bees of California](#), [Wanna-Bee an Engineer?](#), [Hive Dive Live](#)

Year-long programs include: [ZomBee Watch](#), [Adopt-A-Hive](#), [Wanna-Bee an Engineer?](#), [Honey Bee Series](#), [Native Bee Series](#), [All Bees Series](#)

We have also added a new format for [High School Programs!](#)

Please email our Program Director, Sarah Thorson, at programs@planetbee.org if you have any questions, or sign up for programs via the online registration forms on our website, www.planetbee.org. Together we can change the world - one bee and one student at a time!

Point Blue (Point Reyes Bird Observatory)

At Point Blue, our mission is to advance the conservation of birds, other wildlife, and ecosystems through science, partnerships, and outreach. Our 140 scientists work to reduce the impacts of habitat loss, climate change, and other environmental threats while promoting nature-based solutions for wildlife and people, on land and at sea.

In addition to the scientific work done by the folks at Point Blue, they have a variety of educational programs. Go to: <http://www.pointblue.org/>

Sonoma County Wildlife Rescue

Presentations

We love to give educational presentations to groups of all ages! We make each presentation to match your group's unique needs. We can talk on a variety of subjects, including ecology, wildlife rehabilitation, and cohabiting peacefully with wildlife. Presentations may include Powerpoint, skits, games, or specimens.

Tours

Each presentation at SCWR includes a tour of our Educational Wildlife Community. Our community is comprised of non-releasable wildlife in natural enclosures. Animals include mountain lions, coyotes, raccoons, and many more!

If you would like to sign up for one of our presentations, please call (707) 992-0274 or email us at education@scwildliferescue.org.

Web site: <http://www.scwildliferescue.org/presentation-at-scwr.html>

For information, contact Linnaea Furling at: education@scwildliferescue.org or 707-992-0274

Sonoma Resource Conservation District:

Education

LandSmart Education® creates connections and inspires conservation through a series of engaging educational opportunities for community members of all ages. Youth programs offer innovative hands on learning experiences at local farms. A distinctive public outings series highlights local protected agricultural properties and the importance of conservation as a tool in working landscapes in partnership with local landowners. Our annual workshops are designed to deliver cutting edge information and resources about land management techniques available through RCD and partner programs with topics including water management and conservation, fish and wildlife habitat enhancement, erosion control, soil health, and carbon sequestration.

Education programming includes:

- FARMS Leadership Program- high school youth
- TEAM Program field trips- elementary school students

- Agricultural Heritage Series- for members of the public
- LandSmart Workshops- designed for landowners and managers

The California Academy of Sciences, the Exploratorium, and other organizations periodically offer free “Teen Science Night” events. Partners include Space and Science Museum, de Young Museum, Oakland Zoo, San Francisco Zoo, Marine Mammal Center, NASA and others. Do (or have your students do) an Internet search for “Teen Science Night” for upcoming events.

Teen Tech San Francisco

Our mission is to inspire and empower the next generation of tech innovators. TeenTechSF is an interactive tech community for teens to innovate, collaborate, and create. Run by and for teens, all our events are free.

Since launching, TeenTechSF has connected 1,600+ teens on five continents with more than 100 tech leaders from Apple to Zynga offering presentations and workshops on design thinking, coding, app creation, robotics, 3-D printing, entrepreneurship, professional networking, tech careers, and global tech trends.

Like the [TeenTechSF Facebook page](#) for the latest news & events.

See the [TeenTechSF@MarchFor Science video](#) and [TeenTechSF March For Science Facebook recap/photos](#).

This Week in California History...

is a new site for learning about California history, including California’s science and environmental history. ThisWeekinCaliforniaHistory.com is a digital playground for California history and geography. It posts what happened in California over 500 years a week at a time; from natural history to LGBT milestones and including science events like 19th century patents by women in California. The site is free, non-commercial and full of interesting content.

U.S. Forest Service:

You may now order FREE sets of scientist cards from our web site! The cards feature Forest Service scientists and are a great way to introduce students to different science careers. To view the variety of cards we have, please visit <http://www.naturalinquirer.org/scientists-v-92.html>. We also have 2 lesson plans to accompany the cards. These lesson plans are available as pdf files on the web page listed above and the direct links are: <http://www.naturalinquirer.org/UserFiles/File/FinalScientistsCardSeriesLessonPlan.pdf> and [http://www.naturalinquirer.org/UserFiles/File/CardLessonPlans_StealingBundles\(1\).pdf](http://www.naturalinquirer.org/UserFiles/File/CardLessonPlans_StealingBundles(1).pdf).

To order your free sets of cards today, please visit <http://www.naturalinquirer.org/Scientist-Card-Ordering-Page-v-155.html>.

Wet Gazette

The Water Education Foundation and California Project WET have changed the format for their Web site for water education resources. This excellent source for water education resources includes:

- Trending: What's Happening Now in California Water
- Water Topics: News, Events, and Information by Topic
- Aquaforia: What News You Need to Know
- Aquapedia: An Online Water Encyclopedia
- A Quicklink section giving upcoming events, and resources for purchase

For the spring issue of the Project WET Gazette, go to:

http://www.watereducation.org/publication/spring-2018-california-project-wet-gazette?utm_campaign=Welcome%20to%20Spring%2C%20California%20Project%20WET%20Alumni%21&utm_medium=email&utm_source=bundle_and_blast

For everyone seeking workshops, we have a variety for you to choose from this summer and a few already posted for the fall at the Foundation's website at [workshops](#) and [Special Workshops and Events](#). We also have lots of non-school related 'Events' for those who just want to get away!

Wildcare/Terwilliger Nature Education Programs

The Wildcare's Terwilliger Nature Education Programs offer a wide range of environmental education opportunities for K-12 classrooms, including:

-Live Wildlife Ambassador Program: Three wildlife ambassadors will visit your classroom for an unforgettable presentation. Possible wildlife visitors include a Northern Spotted Owl, Virginia Opossum, California Desert Tortoise, Red Tailed Hawk, Gopher Snake and many more!

-Nature Hikes: Guided discovery hikes are offered at four locations (Spring Lake, Miwok Meadows, Ring Mountain, Muir Woods)

-Nature Van: Students will explore touchable taxidermy, bones and biofacts in this interactive presentation at your site. Choose from a variety of topics including California Wildlife, Birds of a Feather, Marvelous Mammals, Redwood Giants, Wild Wetlands, Ocean Adventures and Going Green.

-Center Tours: Meet our non-releasable rescued wildlife ambassadors in a guided tour around our outdoor courtyard and museum. Each tour includes a special animal encounter with one of our wildlife ambassadors.

Each classroom automatically qualifies for a scholarship that matches the percentage of the student body enrolled in the Free and Reduced Meal Program.

For more information or for additional teacher resources, visit <http://www.wildcarebayarea.org/education> or email tory@wildcarebayarea.org

WATER WEBSITES OF INTEREST

[Visit the USA](#)

Here you will find lots of great information and tips on visiting and traveling in the USA. No two trips are alike, so you will find information in this section for a variety of trip types. Whether you prefer staying in a resort or camping under the stars, the

site includes details travelers need to be safe and happy a trip. Being prepared early and knowing what to expect will help reduce traveler stress and be more able to enjoy the unexpected events of travel. This website has done a lot of the ‘Wet Vacation’ research on states for students – and each state description often includes links to state travel sites that highlight regions within the state, such as the California travel website below.

[Visit California](#)

If you know which part of California is of interest but you still need some guidance, click on “Map,” and then explore one of the 12 geographical regions of the state. We’ve organized our content—including videos, a printed visitor’s guide and even [travel tips](#)—with an eye toward helping find what you want quickly and easily. Searching this site is simple: If you already know what you’re looking for, type the keywords into our search bar at the top of the page. The “hamburger” menu in the top right corner of the page is another great resource—it has links to articles and other content organized around interests.

National Park Service: [Plan Your Visit](#)

Are you ready? Whether you want to explore local places or plan a vacation, you’ll [find a park](#) to suit your interests! The National Park Service preserves unimpaired the natural and cultural resources and values of the National Park System for the enjoyment, education, and inspiration of this and future generations. This is a wonderful website to pair with or expand on ‘*Discover the Waters of Our National Parks*’ (p: 495) or [the California version of the activity!](#)

U.S.G.S. – [The National Map](#)

As one of the cornerstones of the [U.S. Geological Survey’s National Geospatial Program](#), The National Map is a collaborative effort among the USGS and other Federal, State, and local partners to improve and deliver topographic information for the Nation. It has uses ranging from recreation to scientific analysis to emergency response. The National Map Viewer is the one-stop destination for downloading map data and products. It uses easy to navigate foundational base maps and makes it simple to download products such as the US Topo.

[U.S. Climate Data](#)

The purpose of the U.S. Climate Data is to inform people about the climate in the United States. This website was developed by Your Weather Service. The website includes monthly and daily data for temperature, precipitation, snowfall and sunshine for multiple locations in every state. The monthly data also includes a climograph of the average precipitation, maximum and minimum temperature by month for each location that can be opened separately in its own page to copy. Each location also includes Google map link to see where it is located and a link to the current weather forecast at that location. The page also links to [climate.eu](#) where one can find monthly data for countries in Europe and Africa.

NOAA: [U.S. Climate Atlas](#)

These maps use daily observations of temperature and precipitation from over 10,000 stations in the U.S. based on new methodologies to quality control the daily data, summarize the daily data into monthly values and the creation of maps to visualize the information. There are maps for minimum temperature, maximum temperature, and precipitation. There are two types of data that can be displayed; maps for a particular month and year from 1895 to present, or climatology maps. The climatology maps represent average values from 1981 to 2010. These are also known as the “1981-2010 Normals”.

NOAA: [Defining Climate Normals](#)

You’re looking forward to taking a much-deserved vacation in four months, and you want to visit a U.S. city you’ve never been to before. So, how do you decide where to go? Perhaps you’ll consider places where you can expect your ideal temperatures. But, at four months out, your trusted weather forecast probably won’t be much help in finding locations that meet your temperature criteria. Fortunately, our scientists have calculated the “normal” temperatures you can expect to see each month at locations across the United States. We call them [Climate Normals](#), and we compute a new installment every decade.

ESRI: [Severe Weather Public Information Map](#)

Manage your severe weather response with live feeds and sensor data. This map features live feed layers for Severe Weather across the United States and Canada and displays the predicted ice accumulation for the next 72 hours across the Continental United States. Data are updated hourly from the National Digital Forecast Database produced by the National Weather Service.

NOAA: [Climate Data Primer](#)

Heading out for a walk on a chilly spring morning, you notice misty clouds on the hills in the distance. You’re feeling eager for summer to arrive, but the hillsides are just beginning to green up after the end of winter. You wonder, “Is it cooler than usual this spring? I think I’m usually wearing shorts by this time of year.” Thinking about the weather, you recognize what you’re really concerned about is if it will rain on your barbecue this weekend.

NOAA: [Historical Climate Summaries – New Version](#)

The Regional Climate Centers (RCC) deliver climate services at national, regional and state levels working with NOAA partners. The Regional Climate Center data interface is being updated, but you can already start using the new version. Click ‘OK’ on the note about the page not loading Google Maps correctly, then choose one of the two ways to use the map as

described below the map. Click on any data point that appears to get more data than you probably want! This website includes the '30-year normals' used in the U.S. Climate Data locations, the maps in the U.S. Climate Atlas – AND you can get all the raw data available for the life of each gauge on the RCC map!

NOAA: [Comparative Climatic Data](#)

The Comparative Climatic Data tables of meteorological elements outline the climate conditions at major U.S. weather observing stations, Puerto Rico, and the Pacific Islands. The stations list is alphabetically by state. The table arrangement is so a single table of the same element allows the user to compare the values for different locations. Some elements will not be in the table for weather stations that do not regularly report that element. This site also allows users to [view data and graphs of temperature and precipitation Climate Normals](#) for over 9,800 stations across the United States.

US EPA: [Climate Change Indicators: Weather and Climate](#)

Rising global average temperature is associated with widespread changes in weather patterns. Scientific studies indicate that extreme weather events such as heat waves and large storms are likely to become more frequent or more intense with human-induced climate change. This chapter focuses on observed changes in temperature, precipitation, storms, floods, and droughts.

Real World Learning Objects: [Using Excel to Create a Climograph](#)

A climograph is a chart commonly used to graphically display both annual temperature (highs, lows, and averages) and precipitation information for a city or region. Meteorologists and climatologists use climatograms to understand the general climate of a region. They are also frequently included in travel books and tourism brochures so interested visitors can select the "best" time of year to visit a certain location. This website walks one through [how to use a spreadsheet program to create a climograph](#), and then use and analyze the graph to make a recommend times of the year to visit their area of study.

GardenZeus: [California Climate Zones](#)

The same weather and climate factors that may affect vacation plans also come into play when planning what to plant in your garden. GardenZeus California Climate Zones were developed by taking into account many factors including seasonal climate, temperature averages, elevation, frequency of frosts and precipitation. The website includes a wonderful synopsis of the prevailing weather and climate in each of their California climate zones, which upon clicking on shows a list of garden plants recommended for the region.

Desert research Institute: [Stories in the Snow](#)

DRI is pioneering an exciting and unique approach to the science of snow. The Stories in the Snow project engages community members as citizen scientists in real data collection and research throughout the Sierra Nevada. Every snowflake is unique, and the shape of freshly-fallen crystals can tell us about real-time atmospheric conditions. Using smartphone technology, you can help track the path a snowflake has taken through the atmosphere!

[California Project WET Supplemental Materials Page](#)

Remember to check this Water Education Foundation web page to find California specific supplements and other materials for use with Project WET activities, including other activities tied to weather and climate such as the California version of *'Discover the Waters of Our National Parks,' 'Snow and Tell' or 'Back to the Future.'*
