Grapevine

June, 2026

over 1000 subscribers

What is the Grapevine?

The *Grapevine* is a free monthly e-newsletter intended to help inform North Bay Area educators, and others, about science and environmental education resources, events, opportunities, etc. To receive the *Grapevine*, just email me at: mikeroa46@gmail.com

Please share this information with whomever might be interested, and ***if you find out about something that should be shared among science and environmental educators, please let me know.***

If you would like to have your event or other science or environmental education opportunity included in the Grapevine, send me an email with a short announcement that I can cut and paste. Send to: mikeroa46@gmail.com. Submissions are usually due on the 25th of the month. I plan to send the Grapevine the around the first of each month. (See Submission Due Date below.)

***If you represent an organization and would like to write your own (short) description, that would be GREAT. If you offer opportunities for volunteering or citizen science, please be sure to note that.**

To unsubscribe, just send me an e-mail asking to be dropped from the Grapevine list.

Past issues of the Grapevine are being archived at the North Bay Science Discovery website at:

<https://www.northbayscience.org/grapevine>

Please note: I'm converting my email address from mroa@sonic.net to mikeroa46@gmail.com

Submissions Due:

I try to send out the *Grapevine* around the first of each month. Submissions for the next *issue* are due **the 27th of each month**. The next issue will include events through approximately **the 16th of the next month**.

Interested in a JOB? Have an opening to advertise? See the JOBS section following the articles.

Other science and environmental education newsletters:

A great free science newsletter and calendar is "SciSchmooze." Contact Kishore Hari at: bayareascience@substack.com

National Environmental Education Foundation (NEEF)

As its name implies, the National Environmental Education Foundation supports E.E. providers. They have a monthly newsletter in which they share information of interest to environmental educators. Sections include:

- **Educator Resources**
- **Grant Opportunities**: info on grants ranging from \$500 to \$50,000
- **Professional Development**:

You can sign up to receive the monthly NEEF newsletters at: <https://www.neefusa.org/ee-focus-newsletter-sign>

The North American Association for Environmental Education (NAAEE)

also has a newsletter : eeNEWS. In addition to promoting NAAEE conferences and other things, it includes information on:

- **Learning** (Professional Development)
- **Opportunities** (Grants, Contests, Publishing)
- **Resources** (For Students and Educators)

They also have an “eePRO” program to help e.e. professionals network

For information or to subscribe, contact NAAEE at: info@naaee.org

Forestry Challenge Teacher Newsletter:

This monthly newsletter is NOT just about forestry education. Each month’s issue includes a variety of opportunities for both teachers and students. Including professional development, funding, classroom activities and more. The author, Diane Dealey Neill also puts out a College and Career newsletter. I recommend signing up for both. Contact Diane at dianedealeyneill@gmail.com

For other opportunities, check out: sciencenearme.org

STAND UP FOR SCIENCE, the ENVIRONMENT, and HUMANITY

Since I started the *Grapevine* in 2008, it has been pretty much apolitical. But I feel that the threats to science, the environment, democracy, and the rule of law posed by Trump and his cronies can not be ignored.

If I find out about any local actions, I’ll send out an email to *Grapevine* subscribers.
SO...

IF YOU FIND OUT ABOUT ANY LOCAL ACTIONS, PLEASE LET ME KNOW SO THAT I CAN PASS THE INFORMATION ON.

You might be interested in Bill Nye’s Stand up for Science speech at:
<https://www.youtube.com/watch?v=IE92dsS6M3s>.

Some sources of information and ideas about actions are:

- **5calls.org** (focus is on calling your representatives to express your opinion)
- **Robert Hubbell** (a lawyer’s perspective on current events)
- **Jessica Craven’s Chop Wood, Carry Water** (information and suggestions. Her Sunday missive focuses on positive happenings during the previous week.)
- **Indivisible.org** has been fighting the fight since 2016

One source for info on actions is the Mobilize Us / Hands Off website: <https://www.mobilize.us/handsoff/>

Want unbiased news?

Well, good luck with that! We all have our biases and “confirmation bias” is real. Probably the best we can do is to try to understand both/all sides of issues. Here are a couple of websites that seem to try to present both sides:

Tangle: the author says:

“I’m Isaac Saul, and this is Tangle: an independent, nonpartisan, subscriber-supported politics newsletter that summarizes the best arguments from across the political spectrum on the news of the day — then “my take.”

Are you new here? [Get free emails](#) to your inbox daily. Would you rather listen? You can find our podcast [here](#).”

Here’s the link to *Tangle*: <https://www.readtangle.com/?ref=tangle-newsletter>

Another is ***Ground News***, which, according to the May 23, 2025 issue of *The Week* “aggregates reports from different news outlets and gives them each a bias score on the spectrum of left, center, and right, along with a ‘factuality’ rating.” When you go to the website, there’s a bar across the top that lets you select the area(s) of interest. Their approach is pretty interesting. Here’s a link: <https://ground.news>

Demonstrations and Protests:

Indivisible Sonoma County seems to be the main group organizing protests in Sonoma County.

I previously provided a website with lots of **ideas for signs**. So that you don’t have to go find that link, here it is again:

<https://bedfordvademocrats.org/how-to-make-protest-signs>

Got other good ideas for signs? Send them to me and I’ll post them!

Lots of Hands Off EPA, Social Security, NEA, VA, etc. How about **(tiny) Hands Off** of your favorite agency?

Orange Lies Matter

Question Autocracy

With a drawing of a rattlesnake: Don’t Tread on Science...It’ll come back to bite you!

Here’s one: Make America Green Again

If you aren’t already enraged by what’s happening, check out this link:

Sharing...resources, information, opportunities

Presentation on Discovery Day and *Coast Redwood Field Guide*

The good folks in the Milo Baker Chapter of the California Native Plant Society have invited me to talk with them about the North Bay Science Discovery Day and the *Introductory Field Guide to the Coast Redwoods* that I recently wrote. I'll be sharing a slide show about both at their meeting on June 16. You are welcome to join us. I'll have some copies of the *Field Guide* for you to examine and purchase if you wish to.

Wednesday, June 16

7:30

**Luther Burbank Art and Garden Center
2050 Yulupa, Santa Rosa**

Are you retiring, moving, or changing jobs or emails?

Please let me know if you will have a new email address or no longer want to receive the *Grapevine*. You are, of course, welcome to continue to receive it even if you are no longer going to be teaching, but **please let me know if you don't want to keep receiving it**. And if there is somebody else at your school or organization that might want to receive it, please have them contact me. Thanks. Mikeroa46@gmail.com

Stewards of the Coast and Redwoods...

Upcoming classes and more:

Free Guided Walks at Armstrong Redwoods State Natural Reserve

Saturdays and Sundays ongoing, 10 a.m. start time

Learn about the redwood forest during this easy guided walk for groups of 4 or less.

[More Info](#)

Last Two Weekends of the Season, May 23/24 and 30/31 with Stewards Official Whale Watchers for 2026!

Saturday, May 23, 2026 - Sunday, May 31, 2026

10:00 am - 2:00 pm

Free! Whale Watcher Docents will be there May 23/24 and 30/31

[More Info](#)

Easy Sonoma Coast May Wildflower Walk with Dr. Laura Morgan

Saturday, May 30, 2026

10:00 am - 12:00 pm

The Fog is Thinning Over West County

A May 30 “Guest Post” written by Roger Coryell in the *Sebastopol Times* discusses the reduced amount of fog that we experience in western Sonoma County. The fog in our area has been studied since the 1950s, and the research shows that coastal California has lost about 35% of its summer fog since 1851, which translates to a change from 12 hours of fog per day to about 9 hours. We’ve long believed that our beloved redwoods depend on fog for their water needs during the summer. What does such a loss mean for them? According to a USGS study, one hour of fog gained or lost per day is equivalent to about 100 years of temperature change due to climate change.

According to the article, “In October, the Heising-Simons Foundation announced a \$3.7 million, five-year research collaboration called Pacific Coastal Fog Research, with five principal investigators from Indiana University to Scripps to SF State to CSU Monterey Bay.” Fog monitoring stations have been set up in western Sonoma county to collect data.

For more information, you can contact the article’s author, Roger Coryell, at: roger@rogercoryell.com

From the Bay Area Science Festival:

Looking for some family-friendly science fun? Here's a sampling of upcoming events around the Bay Area to infuse your days with wonder.

- [First Fridays at CuriOdyssey](#) is June 5, 5pm-8pm in San Mateo. This monthly event at CuriOdyssey playground and zoo is all about science, animals, music, food trucks, and fun!
- [Marine Science Institute World Ocean's Day](#), June 6, 10am-3pm in Redwood City is a day of bay and ocean discovery, connection and hands-on activities.
- [InsectPaloosa](#) is free at SaveNature on June 7, 12pm-3pm in San Francisco. Hold live insects from around the world, make insect inspired art, and try mealworm chocolate chip cookies!
- [Pollinator Day](#) is free at Presidio Tunnel Tops by Golden Gate National Parks Conservancy, June 7, 12pm-4pm in San Francisco. There'll be pollinator art, nature observation, educational games, pollinated snacks, and a scavenger hunt!
- [Life in Space Festival](#) on June 13-14 kicks off a new exhibition at the Exploratorium in San Francisco (Festival entry included with museum admission). Learn about the search for extraterrestrial life, discover sounds on other planets, find out what it takes to become an astronaut— an all-ages exploration of how to stay alive—and even thrive—beyond Earth.
- [SF Public Library Discover and Go](#) offers free and low-cost passes for museums, science centers, zoos, theaters, and other cultural destinations.
- [Museums for All](#) offers free or reduced admission for SNAP beneficiaries at Bay Area museums.

Marin Water:

National Trails Day with Marin Water

Saturday, June 6th, 9:00 am-2:00 pm

REGISTER HERE: [Marin Water Volunteer Event Registration Form](#)

Join Marin Water and Redwood Trails Alliance to improve your favorite trails on the Mt. Tam Watershed. In celebration of National Trails Day, this event will be open to a larger number of volunteer and will include lunch!

During this event, we will be building a causeway near Bon Tempe Lake to improve trail and water crossing accessibility. Volunteers will be assisting with transporting rock and dirt materials for the project, as well as other trail maintenance projects.

All experience levels are welcome, but volunteers should be prepared to hike at least 3 miles and expect to be using tools for a period of time. Participants are asked to wear long pants and good hiking shoes. Gloves and tools are provided.

Trail events are suitable for ages 13 and up, with parental supervision required for volunteers under 16. Specific details about where to meet and how to prepare for this trail stewardship event will be provided upon registration. Location and tasks are subject to change, depending on the weather.

Climate Connections Academy

July 13, 14, 15, 16, 17, 2026, 9:00 a.m. to 3:00 p.m.

College of Marin - Indian Valley Campus, 1800 Ignacio Blvd, Novato, CA 94949

Register at <https://qrco.de/SF4H>

\$50 fee, waived upon request.

An environmental education academy that supports youth in seeing themselves as people who belong on a college campus, in nature, and in climate solutions. Participants engage in experiential learning, outdoor labs, guest speakers, and a capstone project that connects local environmental questions to practical action. Program Contact: Kayla Gulick at kgulick@ucanr.edu.

FINAL PETALUMA WETLANDS ALLIANCE BIRD WALKS UNTIL OCTOBER 2026

Celebrate the season with the final Petaluma Wetlands Alliance bird walks of Spring 2026. Get out and enjoy our beautiful wetlands with PWA Docents leading Saturday Bird and Nature Walks on the 2nd and 4th Saturdays of the month from October through June, 9–11 am. No reservations required. Meet in the respective parking lots to begin the walk.

- June 13 — Shollenberger Park
- June 27 — Ellis Creek Wetlands

Bodega Marine Lab Science Uncorked

Join us at Gourmet au Bay (1412 Bay Flat Road, Bodega Bay) on select Wednesdays to hear talks by local scientists! Since 2013 Science Uncorked has hosted over 100 public lectures featuring scientists from Bodega Marine Laboratory (BML), from UC Davis main campus, and from the greater North Bay Area science community. The presentations are free to attend!

Happy hour starts at 4pm and food is served until 6pm. Presentations are from 6-7pm.

Come for the science, stay for the wine. Or vice versa!

Winter Spring 2026 Schedule:

June 10 – Isaac Trevino – Overcoming Health Related Barriers to White Abalone Reproduction

Brought to you by Gourmet au Bay and Bodega Marine Laboratory

COOL JOBS FOR H.S. STUDENTS...

And others

SEE JOBS SECTION (pg. 19)

Forestry Challenge Pre-Registration

Hello Teachers! Announcing the opening of pre-registration for five 2026 Forestry Challenge events this fall:

Shasta - September 23 to 26

Santa Cruz - October 7 to 10

El Dorado - October 28 to 31

San Bernardino session 1 - November 11 to 14

San Bernardino session 2 - November 18 to 21

Pre-registering does not obligate you or your school in any way. We would simply like to have an estimate of interested participants in order to plan for the fall. Those who pre-register before June 30, 2026, will guarantee space for at least one team at the event of your choice. You are welcome to attend any event that suits your location, school schedule, and interest. These events are FREE for students and teachers, and we offer substitute and transportation support if needed. May is the last month for pre-registration. Here is a link to the [pre-registration form](#) on the [website](#).

[Pre-register](#)

From the Sonoma County Radio Amateurs:

ARRL Field Day is a radio communications event that brings together amateur radio operators (also called “hams”) within your community.

ARRL Field Day is the most popular ham radio activity held annually in the US and Canada. On the fourth weekend in June each year, more than 31,000 hams get together with their radio clubs, schools, or friends to operate from remote locations.

Some groups use Field Day as an opportunity to practice their emergency communications readiness. ARRL Field Day is an annual demonstration and invites the public and organizations to see how amateur radio can serve in an emergency, When All Else Fails®

Sonoma County Radio Amateurs is hosting a Field Day 2026 Event:

June 27-June 28

11:00 a.m. Saturday through 11:00 a.m. Sunday

This is a 24-hour event.

Youth Community Park: 1726 Fulton Road, Santa Rosa, CA 95403

Also: The Sonoma County Radio Amateurs is presenting an amateur radio technician class, which is preparation for the exam to obtain an amateur radio license. Go to: sonomacountyradioamateurs.com

Wetlands Exhibition at the Petaluma Museum

The Petaluma Wetlands Alliance is pleased to collaborate on *Time & Tide: An Artful Exploration of Petaluma's Wetlands*, a juried multidisciplinary exhibition which will be on view April 9 through June 7, 2026, at the Petaluma Historical Library & Museum (20 Fourth Street). Blending art, science, and history, the exhibition will explore the rich story of the Petaluma River watershed—past, present, and future. Through interpretive panels and compelling artwork, visitors will gain a deeper understanding of how our wetlands sustain wildlife, support our community, and require ongoing stewardship.

Throughout the exhibition run, the Museum will host guest speakers, and PWA plans to offer posted bird walks and additional public presentations to further engage the community.

Mark your calendars, and visit

<https://www.petalumamuseum.com/> for more information

2026 Summer Symposium – The Role of Arts in Early STEAM

This free virtual event is intended for the educators, librarians, families of children, and other adults working with or supporting children's learning from birth to third grade.

When: Friday, June 26, 2026, 9 a.m. to 2 p.m. Pacific Time

Register here: <https://bit.ly/4cqzeLt>

Keynote Speakers:

- Science, Technology, Engineering, Arts, and Mathematics (STEAM): Shaping Thinkers, Empowering ARTistic Minds with Julie Montali
- Building a Fire: Arts Integrated with Sally Baker

Breakout Sessions and Presenters:

- Nature Journaling: Art and Science for Anyone, Anywhere! with Marleah Augustine
- Pathways to Creativity: A Free Framework for Integrating the Arts in STEAM with Courtney Berolzheimer
- Bringing STEAM to Life: Integrating the Arts in Learning with Daniel Mendoza
- Elevating the Arts in STEAM with Lynneth Solis
- Artful Math: Playing with Geometry and Gabriela Hasper with Judith Fabrega
- The Adaptive Palette: Strategies for Universal Success in Early STEAM with Katie Blunt
- Maker Spaces and Pocket Studios: Designing Spaces for Creativity with Ruthie Iglesias

Visit the registration website at <https://bit.ly/4cqzeLt> for full descriptions of the sessions.

The first 970 people to register (who reside in the United States) have the opportunity to receive a free children's book: *Manny Matches the Weather* or *Moon Chef*. These titles are the first two books in the STEAMWORKS series. To learn more about the series, visit steamworksbooks.com.

Forestry Institute for Teachers (FIT)

The Forestry Institute for Teachers is probably the best in-service training in which I have participated. If you have any interest in forests, I encourage you to participate. The registration fee is \$150, but there is a \$200 stipend for doing a curriculum project. And even if you don't do a project, that's a small cost for almost a week of room, board, resources, and learning in a beautiful setting. Check it out at:

https://webmail.sonic.net/?_task=mail&_caps=pdf%3D1%2Cflash%3D0%2Ctiff%3D0%2Cwebp%3D1&_uid=93323&_mbox=INBOX&_safe=1&_action=show

Registration is now open for the [Forestry Institute for Teachers \(FIT\)](#) 2026 summer program! Join fellow educators and natural resource professionals at one of FIT's immersive, week-long professional learning sessions where teams of credentialed instructors and local experts weave environmental education curricula with unique forestry field experiences to help you explore conservation challenges, stewardship solutions, and critical careers across California's forest ecosystems. Expect an enriching week of outdoor learning that will expand your perspectives and teaching practice!

2026 Summer | Forestry Institute for Teachers

~~El Dorado FIT - June 14-20, 2026 full~~

Tuolumne FIT - June 22-28, 2026

~~Humboldt FIT - July 11-17, 2026 full~~

Shasta FIT - July 19-25, 2026

[REGISTER NOW](#)

Visit <https://www.forestryinstitute.org> to learn more, receive updates, and apply.

From the Forestry Challenge Newsletter:

Here are a couple of items from the June Forestry Challenge Newsletter:

2026 Reforestation Workshops

Limited Space Available

The workshop will take place June 16-17 at the Hopland Research and Extension Center in Hopland, CA. On June 16th, sessions will run from approximately 8:00 AM to 5:00 PM, followed by dinner. On June 17th, the day will be spent both inside and outside from about 8:00 AM to 2:45 PM, with an optional tour from 2:45 PM to 4:00 PM.

Lodging will be provided free of charge for the nights of June 15th and 16th. There are both inside dorm-style accommodations and outside camping/RV spaces available. *Dinner will be provided on June 16th, with breakfast and lunch included on June 16th and 17th.* Please note that all times are subject to change.

Space is limited and will be available on a first-come, first-served basis. If demand is high, we may limit participation to 2–3 individuals per organization. We will follow up by email to confirm your registration or to notify you if you have been placed on the waitlist.

For registration, go to: <https://docs.google.com/forms/d/e/1FAIpQLSfJgBjztHt1n-y6iBg68yKOsFSHP1Efn-o4A4k1bsdGlyuFQ/viewform>

Experience America's Flagship Redwood Forest for Smart Forest Innovation

By Redwood Forest Foundation

Redwood Forest Foundation, Inc. Fort Bragg, CA

Wednesday, June 17 • Starts at 10 AM

Overview

Experience America's flagship forest using data-driven science and Smart Forest innovation to generate insight for restoring forest health.

A recommended donation of \$500 is requested to reserve your spot and will go directly toward planting future giants, helping restore native redwoods and advance their return to an old-growth trajectory. Your contribution includes a tax-exempt receipt. All on-the-ground tour costs are covered except flights and alcohol.

Join us for an immersive executive field experience designed for impact investors, corporate sustainability leaders, and foundations looking to help scale state-of-the-art technology in the field.

Departing at 10 am Wednesday, June 17, from Salesforce Tower in downtown San Francisco, guests will experience firsthand how the Redwood Forest Foundation is stewarding 50,000

contiguous acres along California's Lost Coast.

Explore how restoration, data-driven science, Indigenous stewardship, biomimicry, and Smart Forest innovation are helping position this landscape as a flagship forest of America, generating better data and insight into how we restore forest health at scale.

1. Watershed Restoration and Wildfire Resilience

See how \$10 million is strengthening forest health, watersheds, climate resilience, and wildfire preparedness, while cultural burning and watershed restoration support salmon habitat and reduce sediment at scale.

2. Protecting and Restoring a 50,000-Acre Redwood Forest

Meet our forest management team and learn how reforestation, adaptive management, satellite sensing, LiDAR, and ground-truthing sensors are guiding smarter restoration decisions.

3. Protecting Rare Species in a Global Biodiversity Hotspot

Explore habitat supporting the Northern Spotted Owl, Marbled Murrelet, California red-legged frog, Red-bellied Newt, and Coastal Tailed Frog, and see how monitoring and habitat recovery are advancing biodiversity protection.

Guests will also engage with wildlife cameras, bioacoustics, eDNA sampling, environmental sensors, hands-on redwood planting, old-growth grove exploration, and shared meals in the forest. Guests return inspired, refreshed, and better equipped to lead.

[Get tickets](#)

Register Now: Terrestrial LiDAR in Forestry/NRM: Field Day/Workshop in Santa Cruz Mountains - June 18

Don't miss this unique workshop and field day being offered by the UC Cooperative Extension Santa Cruz Mountains Forests Program in collaboration with Colorado State University and CalFire's Soquel Demonstration State Forest:

Terrestrial LiDAR Field Day: *Applications in Forestry and Natural Resource Management*

Join us for a hands-on field day exploring terrestrial laser scanning (TLS) applications in forestry and natural resource management.

- When: Wednesday, June 18, 2026, 8:00 AM – 1:30 PM
- Where: Meet at the Aptos Library, then carpool to Soquel Demonstration State Forest
- Registration required

What is TLS?

Terrestrial laser scanning is a portable, field-based remote sensing tool that captures 3D models of forest environments. Applications include detailed forest inventory, biomass and carbon

accounting, wildfire risk and fuel load assessment, and tracking forest change over time. At Soquel Demonstration State Forest, a research team is using TLS as part of a CAL FIRE Forest Health Research Grant to assess how selective harvest of coast redwood influences forest carbon stocks, structure, and wildfire resilience.

What to expect

Morning in the field at Soquel Demonstration State Forest, where you'll see a crew actively collecting TLS data in real-world conditions and learn about typical applications, advantages, and challenges of the technology. Learn about and provide input on this new research project that is just kicking off to better understand ecosystem and harvested wood carbon in redwood forests.

Afternoon at the Aptos Library for lunch, a presentation, and Q&A with TLS experts.

Questions? Contact Brian Woodward, Forest Advisor: 831-348-7305

REGISTER HERE: <https://link.ucanr.edu/tls>

Esri Education Summit **July 11–12, 2026 | San Diego, California**

Join a global community of educators, administrators, and GIS professionals to explore the latest strategies and best practices in geospatial learning.

REGISTRATION

Applications for the 2026 AWIS East Bay Scholarship are now open!

This scholarship is designed to encourage and reward outstanding women & non-binary students pursuing degrees in STEMM (Science, Technology, Engineering, Math, Medicine) at East Bay community colleges, as well as undergraduate and graduate programs.

Scholarship Highlights

- Award Amount: \$1,000 (12 recipients)
- Application Deadline: Sunday, June 14th at 11:59 PM PST
- Apply Here: <https://ebawis.org/scholarship>

For additional details, please visit: <https://ebawis.org/scholarship>

Lawrence Hall of Science **Teen Research Programs** **2026 Summer Season**

Explore world-class, cutting-edge science with The Lawrence at UC Berkeley! Elevate your teen's learning journey through our unrivaled, hands-on, research-based approach that brings science to life with real-world applications. In one dynamic week, your teen will delve into the college experience, conducting real scientific research in a university lab, networking with esteemed students and faculty, and exploring diverse STEM career paths.

Go With the Flow: Explore Salmonids and Watershed Science

California Department of Fish and Wildlife (CDFW) is launching an exciting new webinar series developed for classrooms that participate in the [Classroom Aquarium Education Program \(CAEP\)](#).

The new series is called **Go with the Flow: Explore Salmonids and Watershed Science!** The FREE webinars feature CDFW interpreters and scientists for live, interactive lessons about fish, aquatic ecosystems and environmental science that will help supplement CAEP classroom's direct participation in growing and releasing salmonids into California waterbodies.

Topics include fish anatomy, life cycles, migration, watershed science, traditional ecological knowledge (TEK) from Tribal partners and discussion of careers in fisheries and environmental science.

Although the webinars are tailored to support classrooms that participate in CAEP, all classrooms are welcome to participate.

Community-Based Partners Community of Partners Community of Practice (CPB)

The CPB virtual Community of Practice brings program leaders and staff from environmental education organizations together to engage in collaborative learning and build capacity. Join colleagues from around the state to share resources, explore best practices, and build connections to strengthen our respective organizations and increase our collective impact.

- May 19: Climate education

Green Schoolyards:

This lecture series, hosted by Green Schoolyards America, discusses emerging topics and provides guidance for creating and stewarding high-quality green schoolyards and schoolyard forests. It serves as a continuation and expansion of our previous Schoolyard Forest Design Lecture Series. Sessions feature presentations by subject-area experts including Green Schoolyards America's staff, along with time for audience Q&A. See below for upcoming topics! We invite school district facilities staff, schoolyard designers, landscape architects, architects, public agency staff, and others who are involved in creating green schoolyards and schoolyard forests or want to learn more to join us for this interdisciplinary series. However, all are welcome!

Whole Foods Market Foundation

Providing funding for K-12 schools and nonprofit organizations through programs such as:

Garden Grants

Through our Garden Grant program, schools turn outdoor spaces into powerful hands-on learning gardens that connect kids with food, spark their curiosity and support classroom curriculum.

[LEARN MORE](#)

Bee Grant

These grant programs allow for schools and non-profit organizations to receive support for educational beehives and bee programming so students can observe bees up close and learn about the vital role these pollinators play in our food system.

[LEARN MORE](#)

The California Fertilizer Foundation's (CFF) Garden Grant

The California Fertilizer Foundation's (CFF) Garden Grant Program strives to increase the understanding and awareness of agriculture and plant nutrition in California's youth through school gardens. In doing so, classroom curriculum can be enhanced with first-hand experiences.

Applications will be accepted at any time, and reviewed twice a year. January 15, 2026 and June 15, 2026.

Apply For A Garden Grant

We are excited to announce that prior recipients of a CFF Grant are now eligible for an additional grant of up to \$1,500!

Schools that have received a CFF Grant in the past may apply for the Progress Grant Award at the end of the year. For example, 2025 Garden Grant winners are eligible to apply for the 2026 Progress Grant Award.

One winner is selected annually to receive an additional \$1,500.

Take your garden to the next level with the support you need. Apply today and continue growing with CFF!

GARDEN GRANT APPLICATION

Tinker Academy

Presented by Sonoma County Office of Education, hosted at Santa Rosa Junior College, and supported by University of California Cooperative Extension

Dates: June 23-26, 2026 (Tuesday to Friday)

Time: 9:00 a.m. to 3:00 p.m.

Location: Santa Rosa Junior College

Cost: \$50

Who: Middle school youth entering grades 6-9

Register: <https://qrco.de/SF4H>

Contact: Steven Worker (smworker@ucanr.edu)

Funding support: Imagine Science

Description: A hands-on maker academy where middle school youth explore coding, robotics, 3D printing, laser cutting, circuit design, and related making activities. Participants build practical skills while developing confidence, identity as makers, and a stronger sense of belonging in STEM and on a college campus.

Climate Connections Academy

Dates: July 13-17, 2026

Time: 9:00 a.m. to 3:00 p.m.

Location: College of Marin, Indian Valley Campus

Cost: \$50 (fee can be waived upon request)
Who: Middle school youth entering grades 6-9
Register: <https://qrco.de/SF4H>
Contact: Kayla Gulick (kgulick@ucanr.edu)
Funding support: Miranda Lux Foundation

Description: An environmental education academy that helps youth see themselves as people who belong on a college campus, in nature, and in environmental problem-solving. Participants engage in experiential learning, outdoor labs, guest speakers, and a capstone project that connects local environmental questions to practical action.

Youth Drone Academy

Dates: July 20-24, 2026
Time: 9:00 a.m. to 3:00 p.m.
Location: Napa Valley College
Cost: Free
Who: Teens ages 13-18
Register: <https://qrco.de/SF4H>
Contact: Suzanne Raudaskoski (suzanne.raudaskoski@countyofnapa.org)
Funding support: USDA

Description: A drone and geospatial academy that sparks teen interest in food and agriculture through hands-on learning and real-world applications. Participants progress from drone fundamentals to a capstone use case, covering equipment setup, safe and legal operations, airspace and chart reading, crew resource management, flight planning, manual and autonomous flight, image capture for mapping, and data processing and visualization in ArcGIS.

BODEGA MARINE LABORATORY

invites you to join us for public tours on Friday afternoons!

IMPORTANT:

Due to limited capacity, you must reserve a date and time to take part in a tour. Additional dates will be added soon. To reserve your spot [visit:](https://www.eventbrite.com/e/public-tours-of-bodega-marine-laboratory-registration-622690533147)

<https://www.eventbrite.com/e/public-tours-of-bodega-marine-laboratory-registration-622690533147>

About the Event:

When: Fridays, starting at 2pm

Where: 2099 Westshore Rd. Bodega Bay, CA 94923

What will I see?

These tours are led by our wonderful crew of ocean-loving docents, and visitors will learn about ongoing marine and coastal science research at Bodega Marine Laboratory and its history on the Sonoma Coast. Plus, you'll get to meet a variety of colorful and diverse ocean creatures.

Who's invited?

Although we welcome all ages, these tours are best for people who are school-aged and above. Dogs and other pets are not allowed, with the exception of service animals.

Public tours are only available by reservation. If your preferred tour time is already full, you can place your name on a waitlist through Eventbrite to claim a spot if one becomes available.

If you are interested in arranging a tour for a school or other group of 10 or more people, please contact alcarranza@ucdavis.edu instead of booking through the public tour reservation system.

What else should I know?

As you drive up to the lab, please be mindful that we are on the Bodega Marine Reserve, a protected home for many marine and terrestrial creatures. We ask that you reduce your speed to the posted limits and watch out for wildlife.

While on the tour, please stay with your group and do not explore on your own, as parts of the laboratory and reserve contain sensitive organisms and research data that are easily damaged.

Does the tour cost money?

We provide our public tours free of charge, but donations are encouraged and appreciated. Donations are critical to supporting the care and maintenance of the aquaria and animals you will see during your tour.

If you would like to make a gift, you can do so by selecting the donation option when you reserve your tour spot or visit our website to learn about more ways to give: marinescience.ucdavis.edu/give

Some interesting reading:

National Geographic magazine now opens with a series of outstanding photographs called “In Focus.” The photos typically include images from the oceans, wildlife, culture, and nature. They would be great to share with students by posting or possibly removing the captions and then passing them around the class asking the students to try to figure out what they show.

The June **National Geographic** magazine has articles on:

- The Okavango river system in southern Africa
- Multicolored Spanish wall lizards
- Using maggots to make cheese
- “The Last Lions of Gir” (Asian lions in India)
- “fake heads” on butterfly wings
- “Lessons of a Landslide Detective” studying landslides

Science in the News from Sigma Xi

Sigma Xi is a science honor society. You can sign up to receive their **bi-weekly** science e-newsletter at: <https://www.sigmaxi.org/news/newsletters>

Some recent stories:

- Tropical cyclones’ role in carbon cycle could shift by 2035
- Early screening for Type 1 diabetes may be beneficial
- Cows can recognize human faces and voices
- Fossil find suggests earlier complex animal evolution’
- Beluga whale passes mirror test for self-recognition

Sci Tech Daily

Sci Tech Daily is a (you guessed it...) **daily** brief summary of current events in a variety of science fields, including general science, health, space, technology and others. <https://scitechdaily.com/>

Among many others, the **May 31** edition included:

- A hidden Arctic ocean crisis is unfolding beneath the melting ice
- Scientists create “living plastic” that self-destructs in just six days
- Earth may be seeding Venus with life
- Scientists challenge 70-year-old theory of language
- Surprising discovery changes what we know about fog.
- Simple family routines may be the secret to a smoother start at school

• ***TED Talks: Science Worth Knowing:***

- New science-related talks are frequently posted.
- check it out at <https://www.ted.com/topics/science>

Hot (Cool?) Links:

I haven't learned of any new links this month. Do you have any that you would recommend?

Science Humor:

Have an open mind. But not so open that your brains fall out.

Live and Learn is on the next page.

Live and Learn

(in which Mike shares something that he's recently learned.)

Here's something that I wrote a while back but didn't post in the Grapevine:

I recently read a book titled *YOU – A Natural History*, by William Irvine, who is a Professor of Philosophy at Wright State in Dayton, Ohio. In the book Irvine explores how we (and the rest of the universe), came to be. The book is pretty heavy on facts, numbers, and details, but is an interesting read.

When I was a kid I once went to a camp where they claimed to have George Washington's original axe, except that the handle had been replaced 4 times and the head twice. I thought that was pretty funny. Well, it turns out that this is a variation on the *ship of Theseus paradox*, which was described by Plutarch in the first century.

(This was part of a discussion about how often our cells are replaced. According to the book, the average cell in the human body is seven to ten years old, which surprised me. I thought that most cells were replaced in less time than that.)

(And if I worked at a camp, I'd find an old rusty hatchet or axe at a flea market and claim that it was Washington's axe 😊)

Basically the paradox says:

Suppose you have a wooden boat whose planks keep rotting. Let's call your boat Sonoma Sue I. You replace the rotten planks one at a time. After you replace the first couple of boards, the boat is still Sonoma Sue I, right? Well, what if, after a while, you have replaced all of the planks. Is it still Sonoma Sue I?

If you say yes, what about this?:

Your neighbor collected all the boards from the original Sonoma Sue I and used them to build a new boat. Is that boat also Sonoma Sue I? If so, are there now two Sonoma Sue Is? Is your neighbor's boat a clone?

The following occurred to me:

You might say that whichever boat has the majority the original boat's boards is Sonoma Sue I and the other is a daughter of Sonoma Sue... Sonoma Sue II. So if the boat has 101 planks, as long as yours has at least 51 of the original boards, it is Sonoma Sue I. When you remove one more board and your neighbor uses it, his boat becomes Sonoma Sue I, right? What's your boat's name now?

What if Sonoma Sue has exactly 100 planks. Which is Sonoma Sue I when you have removed 50 planks?

And, getting back to our cells: When you were born, you consisted of some number of cells. By the time you read this, all of those cells have been replaced. Are you still the same person?

(See what happens to my mind when I'm retired and (more or less) sheltering in place?)

Another thing that I learned from *YOU*:

The pleasant odor given off by damp soil after a rain is primarily an organic compound called geosmin, which is produced by soil-dwelling actinobacteria. We are very sensitive to that smell. We could detect one teaspoon of it in 200 Olympic-sized swimming pools. But, apparently, camels can detect that odor from 50 miles away!

Jobs:

[Click HERE for a list of job boards.](#)

Job Hunting? Curiously perusing? Have a career in mind but want to know the qualifications? Either way, we have something for you!

CuriOdyssey is hiring STEAM Camp Leaders!

POSITION OVERVIEW: CuriOdyssey is seeking Camp Leaders to inspire love for science and curiosity about the world for Camp CuriOdyssey campers this summer.

Camp CuriOdyssey is supported by a team of Directors, Leaders, Inclusion Assistant, and Leaders-in-Training, reporting to the Camps and Youth Programs Manager. Camp CuriOdyssey's STEAM (science, technology, engineering, art/animals and math) focus is reflected in a robust curriculum developed around the following Camp themes: Gadgets and Gizmos, Art Inventors, Junior Keepers, Nature Quest, Museum Medley, and Ocean Adventure. Camp Leaders, in partnership with and under the guidance of Camp Directors, will deliver our robust curriculum for our TK/Kindergarten to 4th grade campers, support teen volunteer "Leaders in Training" and ensure that the camp environment is engaging, fun, and safe. Leaders serve as role models for campers, establish a foundation of knowledge, model inquiry, and collaborate with campers, learning together. For the summer of 2026 we are seeking 12-14 Leader positions to support the Camp themes referenced above. (descriptions can be found here)

[See the full job posting here](#)

Lake Tahoe Ambassador Program

Who are the Ambassadors?

The Lake Tahoe Ambassador Program is a paid summer internship for youth, led by college-level crew leaders who also gain introductory leadership and team-building experience. This program educates students on how to serve as environmental ambassadors for Lake Tahoe. Participants engage directly with the public, sharing information about Lake Tahoe's natural environment and ways to protect it.

During the summer, Ambassadors are stationed at various popular beaches, trailheads, and visitor centers around Lake Tahoe during peak times. Additionally, Ambassadors receive training in a variety of environmental protection methods and personal development skills. This training includes communication and presentation skills, identification of native and invasive species, trail building, ecosystem restoration, cultural and historical education, wildfire prevention, and more.

The role of Ambassadors:

- Motivate and inspire community members and visitors to recreate responsibly while enjoying Lake Tahoe's parks and beaches
- Share information about ways to recreate in Tahoe, favorite hikes and bike trails, and more
- Model good stewardship by picking up trash, calling city maintenance when trash cans are full, and handing out pet waste bags as needed
- Track observations and interactions with the public using a Citizen Science app
- Present natural history information

- Attend additional trainings outside of public work days on related skills like natural history, trail maintenance, species identification, public speaking, research techniques, and more

CONSERVATION COUNCIL ACCEPTING APPLICATIONS

Sonoma Lands Trust's teen program, Conservation Council, is accepting applications for the 2026-2027 cohort. Conservation Council is open to Sonoma County high school students entering 9-12 grade next school year. Students participate in weekly workshops and field experiences, build scientific and leadership skills, and complete primary research in a team setting. Participants receive a \$1,500 stipend, a \$250 gear allowance, and can earn 255+ community service hours.

[Watch our 3-minute video](#) to hear directly from past participants about what the program meant to them.

Learn more: sonomalandtrust.org/conservation-council

U.S. Forest Service Seasonal Summer Hiring

The Forest Service is hiring up to 2,000 summer seasonal employees nationwide for the 2026 recreation season, supporting public access, visitor services, and stewardship of national forests and grasslands.

Available positions span a wide range of career fields, including recreation, natural resources, administrative support, and visitor services. Seasonal employment with the Forest Service offers individuals the opportunity to work outdoors, build transferable skills, and explore careers in public land management.

Science and Environmental Education Organizations

These organizations offer science or environmental education opportunities and/or **volunteer** or **citizen/community science** opportunities.

If I know of **volunteer** or **citizen/community science opportunities**, I've indicated that, but some may have opportunities about which I don't know.

Check their web sites for more information.

American Cetacean Society

Description: As the name implies, the ACS works to protect cetaceans (whales, dolphins, porpoises), and also supports research.

Web site: The San Francisco Bay chapter's website is: <https://www.acs-sfbay.org/>

Aquarium of the Bay:

Aquarium of the Bay has opened their programming for the 2023-2024 school year. K-12 schools can book either Aquarium-Teacher lead classroom programs (fee-based) or Self-Guided Tours (free, extra chaperones are not included).

Available Programs:

Kinder – Between the Tides: Learn about the animals that live in the tidepool and the adaptations they have to survive their changing world.

1-3rd – Salmon!: Follow the salmon lifecycle from egg to the end and discover how human impacts affect its life journey.

3-5th -Sensational Sea Lions: This outdoor, sense-based program guides students on the scientific journey of wildlife observation. Learn about and observe the World-Famous Pier 39 sea lions. How did they get here, why they stay here, and above all, what makes them such amazing animals.

6-8th – Kraken Lab: Our newest program is quickly becoming very popular with Middle Schools. Come and participate in a squid dissection and learn the ins and outs of this unique animal.

9-12th – 3D Printing Lab: This brief introduction to 3D printing enables your students to learn a little history on 3D printing as well as help print plates that will be used to aid the non-visual community. Note: This program is limited to a maximum of 28 students (2-Sessions of 14 students each, on the same day)

K-12th – VIP School Group Tour: This special tour of the building is held before the Aquarium opens and enables students to see the work that is often not seen by the public. This tour is limited to 25 participants and is not bookable on the website. Please email us for more information

K-12th – Self-Guided Tour: While this tour is booked on 20-minute intervals, the tour length is 1 hour. Your class will be able to go as fast or as slow as you would like which makes it perfect if you only have a limited amount of time.

Email education@bay.org for more information on any of these programs

Visit <https://www.aquariumofthebay.org/> and under the Education tab, find K-12 programs, teacher resources, eLearning modules, Plastic Free Campus, and Professional Learning Courses.

California Naturalist Program

The UC California Naturalist Program is designed to introduce Californians to the wonders of our unique ecology and engage the public in study and stewardship of California's natural communities. The California Naturalist program uses a science curriculum, hands-on learning, problem-solving, [citizen science](#), and community service to instill a deep appreciation for the natural communities of the state and to inspire individuals to become stewards of their local resources.

The mission of the California Naturalist Program is to foster a diverse community of naturalists and promote stewardship of California's natural resources through education and service.

The California Naturalist Program promotes environmental literacy and **stewardship** through **discovery** and **action**. Many other states have similar naturalist programs, but this is the first statewide program in California. To [become a certified California Naturalist](#), participants need to enroll in a 40+ hour course with one of [our partner organizations](#).

We work with over 45 partner organizations that deliver the course and have certified a community of over 2800 Naturalists around the state who have, in turn, volunteered over 175,000 hours in service to nature in the areas of education and interpretation, stewardship, citizen science, and environmental program support. Courses combine classroom and field experience in science, problem-solving, communication training and community service. Students are taught by an instructor and team of experts who are affiliated with a local nature-based center or natural resource focused agency. Upon completing certification requirements, participants are eligible for four academic credits through [UC Davis Extension](#) for an additional nominal fee.

Some CalNat programs are offering online or hybrid programs. See below.

Center for Climate Protection

has a high school program called eco2school. Check it out at: <http://www.eco2school.org>

Children's Museum of Sonoma County

<http://www.cmosc.org/>

Mission

The Children's Museum of Sonoma County inspires curiosity and creativity through joyful, transformative experiences.

About Us

The Children's Museum of Sonoma County (CMOSC) was founded in 2005. Rooted in current early childhood research, CMOSC engages children in joyful discovery experiences that develop foundational skills, create lasting memories, and spark a lifelong love of learning.

Designed for children and their caregivers, the Children's Museum's experiential exhibits emphasize hands-on engagement and learning through play with a focus on art, nature, and science.

The Children's Museum proudly supports the work of parents, caregivers, and educators in raising happy, healthy, and strong children. Since opening its doors in 2014, it has become a valuable cultural resource and destination for Sonoma County.

website: <https://www.cmosc.org/>

Clean River Alliance

The mission of the Clean River Alliance is to remove trash from the Russian River watershed and to educate citizens about the problem of trash in our waters by creating more public clean-up events.

Volunteer Opportunities

Community Resources for Science

CRS helps teachers build on that enthusiasm and bring meaningful science learning experiences to life in their classrooms. Children have a natural curiosity and a craving to learn. CRS works to nurture that learning by connecting classroom teachers with scientists, museums, enrichment providers, and professional development programs in order to bring more science learning experiences to students. CRS also helps individuals and organizations involved in science education to work together and become stronger partners for teachers and schools.

We have compiled some resources for teachers that we thought might be useful as we face school closures and move to more online learning opportunities while we practice "social distancing" in the wake of the spread of COVID-19.

<https://www.crs-science.org/>

Community Soil Foundation

Student-Grown Farm Stand

Community Soil Foundation's mission is to cultivate the wellness of Sonoma County communities by offering land-based education, creating access to organic produce, and regenerating habitat and natural resources. We invite you to come to the Larkfield Community Garden & Learning Center every Wednesday afternoon for your weekly supply of nutritious, organic produce. All fruits, veggies, and flowers are grown by Mark West students and community volunteers using biodynamic and sustainable methods, with proceeds helping fund the garden. All sales are by donation. Look for our Farm Stand at 450 Noonan Ranch Lane and check out other happenings at www.communitysoil.org.

Volunteer Opportunities

CREEC

The California Regional Environmental Education Community (CREEC) Network is a program of the California Department of Education. The CREEC Network fosters regional partnerships throughout the state of California to promote environmental education and environmental literacy by providing teachers with access to high quality professional learning opportunities and education resources.

Along with statewide sponsors and partners, each of the 11 California CREEC Regions provides professional learning opportunities and resources to educators as well as foster communications among schools and organizations interested in supporting the environmental literacy of California's teachers and students. More information on the CDE's CREEC Network program is posted on the [CDE website](#).

Different areas of the state have different CREEC Regions. For information about events in your region, go to: www.creec.org, and select "regions" at the top

Daily Acts

Who We Are

We are a holistic education nonprofit that takes a heart-centered approach to inspiring transformative actions that create connected, equitable, and climate resilient communities. We believe in the power of our daily actions to reconnect people to self, community, and place, which helps to heal our society and planet.

Our Mission is to inspire transformative action that creates connected, equitable climate resilient communities.

Our Vision is to create healthy, just and sustainable communities built upon the daily actions of many people.

<https://www.exploratorium.edu/>

Forestry Challenge

The Forestry Challenge is an academic event for high school students in technical forestry and current forestry topics. Since its inception in 2003, the program has grown from one event to five, a complete buildout of the program in California.

Participants spend four days in the forest learning about the ecology and management of the forested landscapes that provide communities with water, recreational opportunities, wood products, and wildlife habitat. Youth benefit by better understanding the relationship of the forested environment to their community, by exposure to natural resource management as a potential career option, and by undertaking a rigorous critical thinking exercise which is timely and addresses current forestry topics such as wildfire, insects, and forest health.

Watch a one-minute [introductory video!](#)

Friends of Five Creeks

All-volunteer Friends of Five Creeks works hands-on for clean water, healthy watersheds, and natural areas that welcome both wildlife and people, from Berkeley to Richmond on the urbanized east side of San Francisco Bay.

Volunteer Opportunities

<http://www.fivecreeks.org/>

Friends of the Petaluma River

WHO WE ARE

In 2005 Friends of the Petaluma River was formed to connect our community with the wonders of the Petaluma Watershed. While much of our work is focused on conservation and education surrounding this sensitive habitat, we also believe that celebration plays a large role in our mission. Through events at the River Heritage Center, family programming around the Watershed and access opportunities for the public we bring our Watershed to life.

Our Mission

Our mission is to celebrate the Petaluma Watershed through education and stewardship; because every great River needs a true Friend.

Our Goals: Access, Education, and Conservation

- To pursue outreach and educational activities that will nurture enthusiasm and commitment in the watershed for long term sustainable stewardship.
- To monitor conditions and engage in activities that will reduce or prevent pollution and lessen other harmful impacts on the River and its wetlands.
- To foster a River Heritage Center as a community resource. A place to archive information, host events, administer programs, and coordinate river related activities.
- To promote access to the Petaluma River and Marsh for all community members to experience the beauty of this resource for themselves

Are you incorporating environmental education into your classroom?

*Or would you like help developing and implementing a project about the Petaluma Watershed?
Let the Watershed Classroom support you!*

Volunteer Opportunities

Green Schoolyards America

Green Schoolyards America seeks to transform asphalt-covered school grounds into park-like green spaces that improve children's well-being, learning, and play while contributing to the ecological health and resilience of our cities. We are working to change the norm for school ground design, use, and management so that all children will have access to the natural world in the places they already visit on a daily basis.

Our programs support the living school ground movement, build relationships that help it succeed, and work to embed this perspective in our existing institutions and policy and regulatory frameworks.

<http://www.greenschoolyards.org/>

Headwaters Science Institute

The Headwaters Science Institute provides science and environmental education through student-driven research. It is headquartered in Soda Springs. They offer some high school programs for which they charge, butr also provide some free online learning opportunities.

Marin County Parks Department

The Marin County Parks Department offers a variety of opportunities, including volunteer days and naturalist outings. They often partner with the nonprofit One Tam.

Volunteer Opportunities

Check them out at: <http://www.marincountyparks.org/depts/pk/calendar>.

Marin Municipal Water District

The Marin Municipal Water District sometimes has volunteer and citizen science opportunities.

Citizen Science Opportunities

Volunteer Opportunities

volunteerprogram@marinwater.org.

Marin Treks

Marin Treks Natural History Museum offers after school science classes, field trips, and classroom visits to elementary schools and preschools, as well as full and half-day camps during school vacation periods.

<http://www.marintreks.com/index.html>

Marine Mammal Center (Marin County)

The Marine Mammal Center is a wonderful field trip destination for schools and organized community groups such as scouts, camps, and after-school programs. They have a variety of classes available in their lab, have a “Sea to School” program with programs for all grade levels available to come to your school or site, an “Ocean Ambassadors” program for middle schoolers, information on marine mammals, and a variety of other resources.

Join them on the 2nd and 4th Sundays of each month for Marine Science Sunday - a FREE engaging ocean-inspired classroom series from our education experts. These interactive classroom programs are great for all!

Volunteer Opportunities

Go to <http://www.marinemammalcenter.org/> or phone 415-289-7325

NAAEE

(North American Association for Environmental Education):

NAAEE works to accelerate environmental literacy and civic engagement through the power of education.

<https://naaee.org/our-work/programs/covid-19-resources-tips-and-support>

EE News:

The NAAEE’s monthly EE News includes articles or links to articles on environmental education topics. It also includes listings of Professional Development opportunities, Grants and Contests, and Resources for Students and Educators

<https://webmail.sonic.net/? task=mail& caps=pdf%3D1%2Cflash%3D0%2Ctiff%3D0%2Cwebp%3D1& uid=23501& mbox=INBOX& safe=1& action=show>

NOAA

What can NOAA do for you? NOAA Needs Your Input!

NOAA wants to know what type of STEM multimedia and distance learning educators would like to use with students, and for their own professional development.

National Marine Sanctuaries Webinar Series

The National Marine Sanctuary Webinar Series provides educators with educational and scientific expertise, resources and training to support ocean and climate literacy in the classroom. This series targets formal and informal educators that are engaging students (elementary through college) in formal classroom settings, as well as members of the community in informal educational venues (e.g. after school programs, science centers, aquariums, etc.).

Past Webinars are archived and can be accessed from the site.

<https://sanctuaries.noaa.gov/education/teachers/webinar-series.html>

Novato Space Station Museum

Prior to COVID-19, the museum was open most Thursdays-Sundays, and often offered “telescope nights” and daytime solar telescope viewing.

Volunteer Opportunities

Go to <http://www.thespacestationca.org/> to find out about the Novato Space Station Museum and the events that they offer, including:

Occidental Arts and Ecology Center

Sometimes offers courses and events, especially in gardening and permaculture

Go to <https://oaec.org/events/>

OneTam

One Tam is a group that works to protect and enhance the Mount Tamalpias area. See also [Marin County Parks Department](#).

Volunteer Opportunities

For more information, go to: <http://www.onetam.org/>

The Petaluma Wetlands Alliance

OUR MISSION

In addition to preserving habitats, with particular emphasis on birds and overall biodiversity, the Petaluma Wetlands Alliance also works with the schools, governments, environmental organizations, and our community. We educate the public about the ecology, wildlife, and the value of wetlands. The PWA is dedicated to the stewardship, restoration, and expansion of publicly accessible wetlands and associated wildlife habitats. We are active in Shollenberger Park, Alman Marsh, and the Ellis Creek Wetlands.

Citizen Science Opportunities

Volunteer Opportunities

Find out more about PWA at <https://petalumawetlands.org/>

Pepperwood Preserve

Pepperwood's mission is to inspire conservation through science.

Pepperwood's 3,200 acre preserve serves as a refuge for over 900 species of plants and animals. We are leaders in ecosystem-climate research, producing critical science to help guide our region's natural resource management and conservation planning. Pepperwood also offers environmental education opportunities for all ages to cultivate an ethic of conservation in our North Bay region.

Planet Bee Foundation

Planet Bee Foundation is a 501(c)(3) environmental education nonprofit currently offering [virtual E-STEM lessons](#) centered around bees at **NO OR VERY LOW COST** in response to the pandemic. We have virtual live lessons with certified teachers or interactive asynchronous video lessons. We served over **20,000 students** around the country in 2020. [Watch our trailer on YouTube.](#)

Our comprehensive distance-learning program can be tailored to the needs of your classroom curriculum with differentiated activities that align with the **NGSS and the Common Core**.

99% of our virtual lessons have been provided at no cost in our dedication to social justice. Our pricing (if any) and sliding scale are listed [here](#).

Volunteer Opportunities

Please feel free to reach out with questions to programs@planetbee.org.

Point Reyes National Seashore

Point Reyes National Seashore Association's *Science at the Seashore* field trip program for school groups.

Join Us for Hands-On Discovery in Point Reyes!

Students have the opportunity to experience the excitement of discovery in natural habitat, improve science skills, increase awareness and inspire stewardship of our environment. Field trips are held in the restored Giacomini Wetlands, surrounding watershed creeks, or Point Reyes bays and beaches. Study equipment and waterproof footwear are provided; Minimum group size is 10 students; Some activities are season, tide, and group-size dependent; A fee is requested, but scholarships are available!

Hands-on activities include: Aquatic macroinvertebrate sampling, Wildlife tracking, Terrestrial invertebrate sampling, Water quality testing, Fish sampling, Bird surveys, Wetland plant studies, Soil and sediment studies, Habitat restoration, Creek profiling and hydrology, Sandy Beach Mole Crab Monitoring (LiMPETS), Marine debris surveys, Drakes Estero paleo geology and biology.

For information: www.ptreyes.org

Project Learning Tree

Project Learning Tree has developed some new curriculum resources that are available online.

Check out the Winter Newsletter at: http://ucanr.edu/sites/PLT_UCCE/

The Branch is Project Learning Tree's e-newsletter. The March issue includes an article on "10 hands-on Science Projects to Teach About Pollution." Check it out at:

Redwood Region Ornithological Society

Redwood Region Ornithological Society was organized in 1962 to encourage the study and conservation of birds, other wildlife, and their natural habitat.

<http://www.rros.org/>

(Russian) Riverkeepers

Our Mission: to Inspire the Community to Protect the Russian River Forever.

Russian Riverkeeper has been fighting since 1993 to ensure a thriving river system and your rights to fishable, swimmable and drinkable waters.

Unfortunately, clean water is under new attacks from a rapidly warming climate, big agriculture and our government. Now, more than ever, your river needs vigilant enforcement of environmental laws and the care and commitment of people like you.

Volunteer Opportunities

<https://russianriverkeeper.org/>

Russian River Watershed Association

The Russian River Watershed Association (RRWA) is a coalition of eleven cities, counties and special districts in the Russian River watershed that have come together to coordinate regional programs for clean water, habitat restoration, and watershed enhancement. RRWA was formed in 2003 to create opportunities for our member agencies to expand their stewardship role in the watershed.

Download an [RRWA Brochure](#)

Volunteer Opportunities

Please visit www.rrwatershed.org to stay up-to-date on any upcoming environmentally friendly events and workshops around the watershed during the year.

San Francisco Bay Model Events:

For information on opportunities available at the Bay Model in Sausalito, including an events calendar, go to:

<http://www.spn.usace.army.mil/Missions/Recreation/BayModelVisitorCenter/StudentExploration.aspx>

City of Santa Rosa

The Park-A-Month Volunteer Program gives people the opportunity to help improve and clean parks in Santa Rosa.

Volunteer Opportunities

<https://srcity.org/1028/Park-A-Month-Program>

Science Buzz Café

The Science Buzz Café is dedicated to the night science tradition. It is for professional scientists who do it for the money and for the amateurs who do it for love. for info: <http://www.sciencebuzzcafe.org/>

BRINGING SCIENCE & CURIOSITY BACK INTO CULTURE ...

www.sciencebuzzcafe.org (707) 292-5281 daniel@sciencebuzzcafe.org

School Garden Network

MISSION

School Garden Network grows healthy students, families, schools, and communities through garden-based education.

<https://www.schoolgardens.org>

Shape of Life

Shape of Life offers classroom media and resources depicting the evolution of the animal kingdom on planet earth. Explore animal adaptation, animations, and behaviors along with the amazing scientists who bring their stories to life. Discover a rich selection of NGSS materials including lesson plans, readings, illustrations and

activities that inspire a deeper dive into animal phyla. Shape of Life content is FREE to students and educators all over the world.

<https://www.shapeoflife.org/>

Sierra Club

The Sonoma Group of the Sierra Club meets Monday evenings at the Environmental Center, 55A Ridgway, Santa Rosa. The Conservation Committee meets at 5:30; the Executive Committee meets at 6:30. The public is welcome to attend. The chapter is also looking for volunteers, including outings leaders to lead hikes on a regular basis around the area. We are looking for volunteers throughout the chapter, including outings leaders.

<http://www.sierraclub.org/redwood/get-involved>

Volunteer Opportunities

Also see the Sierra Club's Green Life:

<https://www.sierraclub.org/sierra/green-life>

Slide Ranch (Marin County)

The mission of Slide Ranch (on the Marin Coast in Muir Beach) is to connect children to nature. We cultivate healthy bodies and minds and foster future generations of environmental stewards. By farming, cooking, caring for animals and exploring wilderness and the coast, we teach people of all ages to see the connection between their own health, a healthy food system and a healthy environment.

Go to: <http://slideranch.org/>

Sonoma Birding

Mission Statement – Sonoma Birding ∞ Sonoma Nature was founded in 2004 in Sonoma Valley, CA. as a volunteer “citizen science” based conservation organization that establishes sustainable bird and nature related festivals, activities, and programs for all ages, through a variety of partnerships in Northern California and throughout the United States and Canada.

Citizen Science Opportunities

Volunteer Opportunities

For information, go to www.sonomabirding.com

Sonoma Co. Agriculture & Open Space Preservation District

The District partners with several environmental and outdoor education organizations. For more information, go to the District Web site (<https://www.sonomaopenspace.org/>) and select Education and Outreach in the Get Involved tab.

Some of the programs are:

- FARMS Leadership (with Sonoma Resource Conservation District)
- Learning Laguna (with the Laguna Foundation)
- In Our Own Back Yard (with LandPaths)
- Teaching Environmental and Agricultural Memories (with Gold Ridge Resource Conservatin District)
- Wildlife Defenders (with Sonoma Ecology Center)

Sonoma County Astronomical Society

The Sonoma County Astronomical Society is an amateur astronomy club. They have telescope viewing programs and a variety of public outreach programs.

<https://www.go-astronomy.com/astronomy-club.php?ID=479>

Sonoma County Library

The Sonoma County Library often has programs that are science related. Select the Events tab at:

<https://sonomalibrary.org/>

Under that tab they have a “calendar” and a “list” choice. I find the list easier to use.

Note that you can also search by **location** or by the *title* of the program.

Upcoming events include such things as the following, most of which occur at different branches throughout the month.

- presentations by Sonoma County Master Gardeners
- Lego Club
- Hour of Code (Maker Studio)
- Build Club
- gardening for kids

Sonoma County Office of Education Science Ed. Offerings

SCOE occasionally science-related classes for teachers on their Web site (www.scoe.org):

Sonoma County Regional Parks

The Sonoma County Regional Parks offer a wide variety of activities, many of which are science or nature-related. Go to: <http://parks.sonomacounty.ca.gov> and scroll down to “Upcoming Events”.

Some activities are purely recreational, some provide opportunities for community service, and all are educational!

Environmental Discovery Center Drop-in: Every Wednesday-Sunday

Volunteer Opportunities

Sonoma County Water Agency

They have a redesigned Web site and increased resource listings. go to:

<https://www.sonomawater.org/education>

Sonoma Ecology Center and Sugarloaf Ridge State Park's Team Sugarloaf

Sonoma Ecology Center works to address challenges related to water supply and quality, open space, rural character, biodiversity, energy, climate change, and a better quality of life for all residents. Since 1990, we've worked to increase appreciation and stewardship of Sonoma Valley's natural heritage and create measurable benefits in areas of land, water, climate change and biodiversity.

Vision

We envision a future where people, land, water, and wildlife thrive.

Mission

Our mission is to work with our community to identify and lead actions that achieve and sustain ecological health in Sonoma Valley.

Robert Ferguson Observatory:

Robert Ferguson Observatory is continually looking for new docents and volunteers of all ages to help bring the universe to the public. The Observatory is run by the Valley of the Moon Observatory Association, a 501(3)(c) non-profit, and has offered outreach-based astronomy and science programs to the public for almost 25 years. RFO is almost all-volunteer run and typically serves about 9,000 visitors annually. The observatory is located in Sugarloaf Ridge State Park and houses a 40-inch reflector telescope, the largest telescope in Northern California that is accessible to the public; a robotic 20-inch research-grade, "CCD" telescope; and an 8", two-meter long refractor telescope. Prior experience or knowledge in astronomy is not necessary. Please go to rfo.org, click on "Volunteer" and fill out the volunteer application form online to get on the list for our next docent orientation and training! Questions? Contact Stephanie Derammelaere at 707-333-1331 or at sd@rfo.org.

Volunteer Opportunities

Sonoma Land Trust

The Sonoma Land Trust offers a variety of educational outings and volunteer opportunities for the public on protected lands. Check them out at: <https://sonomalandtrust.org> (select the "Explore" tab for the calendar)

Volunteer Opportunities

Citizen Science Opportunities

Sonoma/Petaluma State Historic Parks

While the Sonoma/Petaluma area state Parks primarily focus on history, they do have some science/environmental events and offerings such as twilight nature hikes.

For info, go to www.sonomaparks.org

Sonoma State University:

The Sonoma State University School of Science and Technology has a periodic online newsletter that gives news about the school and includes a link to the various department public speakers and events.

The link for the **speakers/colloquia** is: <http://www.sonoma.edu/scitech/pls/>.

SSU Center for Environmental Inquiry:

The Center's mission is to create an engaged and environmentally ready society, one where everyone has the skills to find solutions to the challenges facing the earth.

With the complex issues before us, such as climate change, overuse of resources, and declining biodiversity, we need to be awake, prepared and engaged. We need to know how to work across sectors and find innovative ways forward.

There is good evidence that we are not ready. Intuitive understanding of ecosystem processes is at an all-time low, and many professionals entering the workforce are not prepared to problem-solve or aware of the impact of ecosystems on economy and culture.

Marin Master Gardeners

Dig It. Grow it. Eat it. A workshop

A one-day workshop on edible plants and nutrition for third and fourth graders, led by UC Marin Master Gardeners and held at the Marin Art and Garden Center. Students will learn to identify edible plant parts and about how plants grow, including the science of pollination and propagation.

- **Station 1 - Edible Plant Parts**
- **Station 2 - How Plants Grow**
- **Station 3 - Plant Seed Science**
- **Station 4 - Plant Propagation**
- **Station 5 - Get in the Dirt**
- **Station 6 - Plant Pollination**

If you are interested in this program, please contact UC Marin Master Gardeners Help Desk.

Email: HelpDesk@MarinMG.org, or call: (415) 473 – 4204

Marin – Sonoma Mosquito Abatement District

Free Science Presentations

The Marin/Sonoma Mosquito & Vector Control District offers free presentations about vectors (mosquitoes, yellowjackets and ticks) to any school in Marin and Sonoma Counties. The presentations focus on the biology of vectors and how students can protect themselves from these critters. Visit <http://bitly.com/educationdept> for more information, or contact Eric Engh at erice@msmosquito.com to be added to our scheduling list.

Mystery Science (a.k.a. Mystery Doug)

Lessons based on searching for answers to questions on a variety of topics.

Schools or teachers can try out some of these lessons for free. Fee for unlimited access.

www.mysteryscience.com

Ocean Currents Radio Program

The first Monday of every month Cordell Bank National Marine Sanctuary produces a live radio program on Community Radio for West Marin called Ocean Currents. Hear from ocean experts as you learn about the importance of a healthy ocean.

Broadcast live in the West Marin listening radius and live online at www.kwmer.org, 1-2 pm. The shows are all archived on the Cordell Bank sanctuary [website here](#), or you can subscribe to the podcast.

Looking for a good resource online to get ocean wildlife photos for educational use?

Check out the [National Marine Sanctuaries online media library](#)

Download photos and video footage for free for educational use and check out the marine sanctuaries online encyclopedia. There are 4 National Marine Sanctuaries in CA. Do you know which ones are closest to you?

NOAA Resources for you

The folks at the Cordell Bank National Marine Sanctuary and the National Oceanographic and Atmospheric Administration (NOAA) have a variety of resources and opportunities available. Check the opportunities out at <http://cordellbank.noaa.gov>

Planet Bee Foundation

[Planet Bee Foundation](#) is a Bay Area nonprofit dedicated to creating a green-minded generation through environmental stewardship, using the lens of the struggling honey bee to teach the power of individual action. We have expanded our offering of hands-on educational programs, each of which can be individually tailored to fit a school's needs, wants, and location. Every lesson is in line with Next Generation Science Standards and grounded in the philosophy of E-STEM learning. We are now taking sign-ups for the 2018-19 school year! Our calendar fills up quickly, so check out our website at planetbee.org and sign up now!

Planet Bee now offers one-day and year-long programs. The [school program overview page](#) on our website lays out each program offering, their alignment with E-STEM and NGSS, and our updated pricing structure. Need-based discounts and sponsorships are available.

All of our programs are developmentally appropriate and designed to address all learning styles. Most programs involve observation of (contained) live bees, games, hands-on activities, and plenty of room for inquiry, creativity, exploration, and discussion. We focus on conservation techniques and environmentalism in every program.

One-day workshops include: [Humble Honey Bee](#), [Bee-ometry](#), [Native Bees of California](#), [Wanna-Bee an Engineer?](#), [Hive Dive Live](#)

Year-long programs include: [ZomBee Watch](#), [Adopt-A-Hive](#), [Wanna-Bee an Engineer?](#), [Honey Bee Series](#), [Native Bee Series](#), [All Bees Series](#)

We have also added a new format for [High School Programs!](#)

Please email our Program Director, Sarah Thorson, at programs@planetbee.org if you have any questions, or sign up for programs via the online registration forms on our website, www.planetbee.org. Together we can change the world - one bee and one student at a time!

Point Blue (Point Reyes Bird Observatory)

At Point Blue, our mission is to advance the conservation of birds, other wildlife, and ecosystems through science, partnerships, and outreach. Our 140 scientists work to reduce the impacts of habitat loss, climate change, and other environmental threats while promoting nature-based solutions for wildlife and people, on land and at sea.

In addition to the scientific work done by the folks at Point Blue, they have a variety of educational programs. Go to: <http://www.pointblue.org/>

Sonoma County Wildlife Rescue

Presentations

We love to give educational presentations to groups of all ages! We make each presentation to match your group's unique needs. We can talk on a variety of subjects, including ecology, wildlife rehabilitation, and cohabiting peacefully with wildlife. Presentations may include Powerpoint, skits, games, or specimens.

Tours

Each presentation at SCWR includes a tour of our Educational Wildlife Community. Our community is comprised of non-releasable wildlife in natural enclosures. Animals include mountain lions, coyotes, raccoons, and many more!

If you would like to sign up for one of our presentations, please call (707) 992-0274 or email us at education@scwildliferescue.org.

Web site: <http://www.scwildliferescue.org/presentation-at-scw.html>

For information, contact Linnaea Furling at: education@scwildliferescue.org or 707-992-0274

Sonoma Resource Conservation District:

Education

LandSmart Education® creates connections and inspires conservation through a series of engaging educational opportunities for community members of all ages. Youth programs offer innovative hands on learning experiences at local farms. A distinctive public outings series highlights local protected agricultural properties and the importance of conservation as a tool in working landscapes in partnership with local landowners. Our annual workshops are designed to deliver cutting edge information and resources about land management techniques available through RCD and partner programs with topics including water management and conservation, fish and wildlife habitat enhancement, erosion control, soil health, and carbon sequestration.

Education programming includes:

- FARMS Leadership Program- high school youth
- TEAM Program field trips- elementary school students
- Agricultural Heritage Series- for members of the public
- LandSmart Workshops- designed for landowners and managers

The California Academy of Sciences, the Exploratorium, and other organizations periodically offer free “Teen Science Night” events. Partners include Space and Science Museum, de Young Museum, Oakland Zoo, San Francisco Zoo, Marine Mammal Center, NASA and others. Do (or have your students do) an Internet search for “Teen Science Night” for upcoming events.

Teen Tech San Francisco

Our mission is to inspire and empower the next generation of tech innovators.

TeenTechSF is an interactive tech community for teens to innovate, collaborate, and create. Run by and for teens, all our events are free.

Since launching, TeenTechSF has connected 1,600+ teens on five continents with more than 100 tech leaders from Apple to Zynga offering presentations and workshops on design thinking, coding, app creation, robotics, 3-D printing, entrepreneurship, professional networking, tech careers, and global tech trends.

Like the [TeenTechSF Facebook page](#) for the latest news & events.

See the [TeenTechSF@MarchFor Science video](#) and [TeenTechSF March For Science Facebook recap/photos](#).

This Week in California History...

is a new site for learning about California history, including California's science and environmental history. ThisWeekinCaliforniaHistory.com is a digital playground for California history and geography. It posts what happened in California over 500 years a week at a time; from natural history to LGBT milestones and including science events like 19th century patents by women in California. The site is free, non-commercial and full of interesting content.

U.S. Forest Service:

You may now order FREE sets of scientist cards from our web site! The cards feature Forest Service scientists and are a great way to introduce students to different science careers. To view the variety of cards we have, please visit <http://www.naturalinquirer.org/scientists-v-92.html>. We also have 2 lesson plans to accompany the cards. These lesson plans are available as pdf files on the web page listed above and the direct links are: <http://www.naturalinquirer.org/UserFiles/File/FinalScientistsCardSeriesLessonPlan.pdf> and [http://www.naturalinquirer.org/UserFiles/File/CardLessonPlans_StealingBundles\(1\).pdf](http://www.naturalinquirer.org/UserFiles/File/CardLessonPlans_StealingBundles(1).pdf).

To order your free sets of cards today, please visit <http://www.naturalinquirer.org/Scientist-Card-Ordering-Page-v-155.html>.

We Save the World

We Save the World is a Santa Rosa-based charity founded to inspire young eco-heroes to protect nature and their futures. Our free web-based Eco-Hero Launchpad makes it fun and easy to learn about environmental causes and write short persuasive stories using our templates and beautiful photographs to fundraise for a youth's chosen cause among family and friends.

For schools, We Save the World's website also provides an Educator version of the Eco-Hero Launchpad. This version can be used by PTA's for school-wide fundraising. We Save the World's website also provides inspiring environmental songs and access to films and curriculum ideas, including our locally produced 10 minute film, "It Only Takes a Moment" (available on YouTube), which inspires youths to understand waste processing in Sonoma

County and aspire to process their own trash responsibly. For more information visit: <https://www.wesavetheworld.org/>.

Wet Gazette

The Water Education Foundation and California Project WET have changed the format for their Web site for water education resources. This excellent source for water education resources includes:

- Trending: What's Happening Now in California Water
- Water Topics: News, Events, and Information by Topic
- Aquaforia: What News You Need to Know
- Aquapedia: An Online Water Encyclopedia
- A Quicklink section giving upcoming events, and resources for purchase

For the spring issue of the Project WET Gazette, go to:

http://www.watereducation.org/publication/spring-2018-california-project-wet-gazette?utm_campaign=Welcome%20to%20Spring%2C%20California%20Project%20WET%20Alumni%21&utm_medium=email&utm_source=bundle_and_blast

For everyone seeking workshops, we have a variety for you to choose from this summer and a few already posted for the fall at the Foundation's website at [workshops](#) and [Special Workshops and Events](#). We also have lots of non-school related 'Events' for those who just want to get away!

Wildcare/Terwilliger Nature Education Programs

The Wildcare's Terwilliger Nature Education Programs offer a wide range of environmental education opportunities for K-12 classrooms, including:

- Live Wildlife Ambassador Program:** Three wildlife ambassadors will visit your classroom for an unforgettable presentation. Possible wildlife visitors include a Northern Spotted Owl, Virginia Opossum, California Desert Tortoise, Red Tailed Hawk, Gopher Snake and many more!
- Nature Hikes: Guided discovery hikes are offered at four locations (Spring Lake, Miwok Meadows, Ring Mountain, Muir Woods)**
- Nature Van:** Students will explore touchable taxidermy, bones and biofacts in this interactive presentation at your site. Choose from a variety of topics including California Wildlife, Birds of a Feather, Marvelous Mammals, Redwood Giants, Wild Wetlands, Ocean Adventures and Going Green.
- Center Tours:** Meet our non-releasable rescued wildlife ambassadors in a guided tour around our outdoor courtyard and museum. Each tour includes a special animal encounter with one of our wildlife ambassadors.

Each classroom automatically qualifies for a scholarship that matches the percentage of the student body enrolled in the Free and Reduced Meal Program.

For more information or for additional teacher resources, visit <http://www.wildcarebayarea.org/education> or email tory@wildcarebayarea.org

WATER WEBSITES OF INTEREST

[Visit the USA](#)

Here you will find lots of great information and tips on visiting and traveling in the USA. No two trips are alike, so you will find information in this section for a variety of trip types. Whether you prefer staying in a resort or camping under the stars, the site includes details travelers need to be safe and happy a trip. Being prepared early and knowing what to expect will help reduce traveler stress and be more able to enjoy the unexpected events of travel. This website has done a lot of the ‘Wet Vacation’ research on states for students – and each state description often includes links to state travel sites that highlight regions within the state, such as the California travel website below.

[Visit California](#)

If you know which part of California is of interest but you still need some guidance, click on “*Map*,” and then explore one of the 12 geographical regions of the state. We’ve organized our content—including videos, a printed visitor’s guide and even [travel tips](#)—with an eye toward helping find what you want quickly and easily. Searching this site is simple: If you already know what you’re looking for, type the keywords into our search bar at the top of the page. The “hamburger” menu in the top right corner of the page is another great resource—it has links to articles and other content organized around interests.

National Park Service: [Plan Your Visit](#)

Are you ready? Whether you want to explore local places or plan a vacation, you’ll [find a park](#) to suit your interests! The National Park Service preserves unimpaired the natural and cultural resources and values of the National Park System for the enjoyment, education, and inspiration of this and future generations. This is a wonderful website to pair with or expand on ‘*Discover the Waters of Our National Parks*’ (p: 495) or [the California version of the activity!](#)

U.S.G.S. – [The National Map](#)

As one of the cornerstones of the [U.S. Geological Survey’s National Geospatial Program](#), The National Map is a collaborative effort among the USGS and other Federal, State, and local partners to improve and deliver topographic information for the Nation. It has uses ranging from recreation to scientific analysis to emergency response. The National Map Viewer is the one-stop destination for downloading map data and products. It uses easy to navigate foundational base maps and makes it simple to download products such as the US Topo.

[U.S. Climate Data](#)

The purpose of the U.S. Climate Data is to inform people about the climate in the United States. This website was developed by Your Weather Service. The website includes monthly and daily data for temperature, precipitation, snowfall and sunshine for multiple locations in every state. The monthly data also includes a climograph of the average precipitation, maximum and minimum temperature by month for each location that can be opened separately in its own page to copy. Each location also includes Google map link to see where it is located and a link to the current weather forecast at that location. The page also links to [climate.eu](#) where one can find monthly data for countries in Europe and Africa.

NOAA: [U.S. Climate Atlas](#)

These maps use daily observations of temperature and precipitation from over 10,000 stations in the U.S. based on new methodologies to quality control the daily data, summarize the daily data into monthly values and the creation of maps to visualize the information. There are maps for minimum temperature, maximum temperature, and precipitation. There are two types of data that can be displayed; maps for a particular month and year from 1895 to present, or climatology maps. The climatology maps represent average values from 1981 to 2010. These are also known as the “1981-2010 Normals”.

NOAA: [Defining Climate Normals](#)

You’re looking forward to taking a much-deserved vacation in four months, and you want to visit a U.S. city you’ve never been to before. So, how do you decide where to go? Perhaps you’ll consider places where you can expect your ideal temperatures. But, at four months out, your trusted weather forecast probably won’t be much help in finding locations that meet your temperature criteria. Fortunately, our scientists have calculated the “normal” temperatures you can expect to see each month at locations across the United States. We call them [Climate Normals](#), and we compute a new installment every decade.

ESRI: [Severe Weather Public Information Map](#)

Manage your severe weather response with live feeds and sensor data. This map features live feed layers for Severe Weather across the United States and Canada and displays the predicted ice accumulation for the next 72 hours across the Continental United States. Data are updated hourly from the National Digital Forecast Database produced by the National Weather Service.

NOAA: [Climate Data Primer](#)

Heading out for a walk on a chilly spring morning, you notice misty clouds on the hills in the distance. You’re feeling eager for summer to arrive, but the hillsides are just beginning to green up after the end of winter. You wonder, “Is it cooler than usual this spring? I think I’m usually wearing shorts by this time of year.” Thinking about the weather, you recognize what you’re really concerned about is if it will rain on your barbecue this weekend.

NOAA: [Historical Climate Summaries – New Version](#)

The Regional Climate Centers (RCC) deliver climate services at national, regional and state levels working with NOAA partners. The Regional Climate Center data interface is being updated, but you can already start using the new version. Click 'OK' on the note about the page not loading Google Maps correctly, then choose one of the two ways to use the map as described below the map. Click on any data point that appears to get more data than you probably want! This website includes the '30-year normals' used in the U.S. Climate Data locations, the maps in the U.S. Climate Atlas – AND you can get all the raw data available for the life of each gauge on the RCC map!

NOAA: [Comparative Climatic Data](#)

The Comparative Climatic Data tables of meteorological elements outline the climate conditions at major U.S. weather observing stations, Puerto Rico, and the Pacific Islands. The stations list is alphabetically by state. The table arrangement is so a single table of the same element allows the user to compare the values for different locations. Some elements will not be in the table for weather stations that do not regularly report that element. This site also allows users to [view data and graphs of temperature and precipitation Climate Normals](#) for over 9,800 stations across the United States.

US EPA: [Climate Change Indicators: Weather and Climate](#)

Rising global average temperature is associated with widespread changes in weather patterns. Scientific studies indicate that extreme weather events such as heat waves and large storms are likely to become more frequent or more intense with human-induced climate change. This chapter focuses on observed changes in temperature, precipitation, storms, floods, and droughts.

Real World Learning Objects: [Using Excel to Create a Climograph](#)

A climograph is a chart commonly used to graphically display both annual temperature (highs, lows, and averages) and precipitation information for a city or region. Meteorologists and climatologists use climatograms to understand the general climate of a region. They are also frequently included in travel books and tourism brochures so interested visitors can select the "best" time of year to visit a certain location. This website walks one through [how to use a spreadsheet program to create a climograph](#), and then use and analyze the graph to make a recommend times of the year to visit their area of study.

GardenZeus: [California Climate Zones](#)

The same weather and climate factors that may affect vacation plans also come into play when planning what to plant in your garden. GardenZeus California Climate Zones were developed by taking into account many factors including seasonal climate, temperature averages, elevation, frequency of frosts and precipitation. The website includes a wonderful synopsis of the prevailing weather and climate in each of their California climate zones, which upon clicking on shows a list of garden plants recommended for the region.

Desert research Institute: [Stories in the Snow](#)

DRI is pioneering an exciting and unique approach to the science of snow. The Stories in the Snow project engages community members as citizen scientists in real data collection and research throughout the Sierra Nevada. Every snowflake is unique, and the shape of freshly-fallen crystals can tell us about real-time atmospheric conditions. Using smartphone technology, you can help track the path a snowflake has taken through the atmosphere!

[California Project WET Supplemental Materials Page](#)

Remember to check this Water Education Foundation web page to find California specific supplements and other materials for use with Project WET activities, including other activities tied to weather and climate such as the California version of 'Discover the Waters of Our National Parks,' 'Snow and Tell' or 'Back to the Future.'

We Save the World

We Save the World is a Santa Rosa-based charity founded to inspire young eco-heroes to protect nature and their futures. Our free web-based Eco-Hero Launchpad makes it fun and easy to learn about environmental causes and write short persuasive stories using our templates and beautiful photographs to fundraise for a youth's chosen cause among family and friends.

For schools, We Save the World's website also provides an Educator version of the Eco-Hero Launchpad. This version can be used by PTA's for school-wide fundraising.
